Campuses. Collaboration. Culture.

With the ever-changing global business environment, there has been a paradigm shift in workplace dynamics as well. Purpose-driven culture and sustainability are now in the spotlight, becoming priorities for leaders in strategizing work, workplace and workforce. Success in this era, more than just financial profit, depends on people, planet and culture.

As the corporates now are increasingly investing in returning to office or expanding space, expectation of greater outcomes aligned with this evolution is ever higher. This is necessitating them to focus on innovation when devising real estate strategies. They must ensure that employees do not commute to compute; rather they come to office for the experience, collaboration and to build relationships and solutions.

Having the potential to foster deeper connection and collaboration amongst employees, build company culture and strike a greater work-life balance, such workplaces are poised to be an important tool for business performance, employee attraction and retention. As a result, high-quality, campus-styled workspaces that are sustainable and technology-enabled are in focus.

THIS IS WHERE BROOKFIELD INDIA REIT STEPS IN.

Our portfolio of real estate assets in key commercial hubs of India is designed to deliver on this evolution with their thriving live-work-play ecosystem. We are further leveraging the global domain expertise to progressively reimagine workplaces with agility, flexibility, sustainability, diversity and inclusivity at its core.

Our expertise and experience in institutional asset management will continue to help augment Brookfield India REIT's position as the preferred destination for leading organizations and a trusted and credible partner for all its stakeholders.

We are all set to graduate from being home to India's growing economy, to that of India's best talent and diverse and collaborative work cultures.

CHAIRMAN'S MESSAGE

A Future Founded on Innovation and Sustainability

“ We have advanced our Net Zero target by 10 years to 2040 and Brookfield India REIT has rolled out a comprehensive ESG strategy to operationalize and achieve this goal. ”

Dear Unitholders,

India's real estate landscape has significantly evolved over the last decade, triggering requirement for new spaces which are innovative, collaborative, sustainable. Brookfield India REIT owns and builds assets relevant to this requirement and we manage our properties with a people centric approach which provides an environment to our occupiers where they can enhance their business.

Leveraging India's Competitive Strengths

As a nation, India has several key elements firmly in place, driving us as the fifth-largest economy in the world. The future reassuringly seems bright as India continues to be seen as a global talent hub and will be the single largest contributor to new non-farm jobs in the world. Properties such as ours will house this engine of global growth.

India has successfully kept its reputation as the leading Global Captive Center market despite cautious sentiments in international markets and ongoing global geopolitical developments. India's position as a competitive services market amidst a tight labor market globally and most importantly corporates encouraging work from office should continue to lead growth across the office segment. This is expected to lead to renewed demand for Grade A office spaces. Meanwhile, the definition of Grade A office spaces is evolving and today includes an increased focus on health and safety, stronger tenant connects and ESG centricity with resource efficient operations. Our assets rank very high on global standards for these features and we are excited to help our clients as they shape up new real estate strategies.

Keeping pace with the growing demand from discerning corporates seeking the best-in-class environment for attracting, retaining, and nurturing talent, we have upscaled our technological strength and upgraded our campuses to make them safer, more environment-friendly and collaborative, which match our tenants' aspirations.

Our global expertise and experience in institutional asset management will continue to help augment Brookfield India REIT's position as the preferred destination for leading organizations and a trusted and credible partner for all its stakeholders.

Making ESG a Business Priority Every Day

Brookfield India REIT has made ESG the topmost priority for businesses and people thereby ensuring the wellbeing of the planet. Our first-ever GRESB score reflects our strong ESG practices placing us as a sector leader for sustainable office development in the region. Overall, Brookfield India REIT placed in the top 20% of assets globally, securing the coveted 5-star rating.

The robust ESG framework of Brookfield India REIT together with the guiding principles of the Sponsor has guided us towards developing and managing quality assets that meet the highest standards of environmental sustainability, deliver positive social impact and

prioritize ethics, integrity, transparency and regulatory compliance. We have advanced our Net Zero target by 10 years to 2040 and Brookfield India REIT has rolled out a comprehensive ESG strategy to operationalize and achieve this goal.

A Future Built on Consistent Performance

Despite the turbulence, we believe that India's advantages are likely to remain intact. This will be backed by the abundance of skilled talent, supportive export-oriented policies, extensive regulatory backing to the IT/ITeS sector and competitive operating costs. Better quality of workspaces and the evolution of office spaces to facilitate a social and performance-driven atmosphere will be the focus. In line with our priorities and business strategies, we continue to focus on operational excellence supporting the real estate need of our occupiers and maximizing the performance and value of our existing assets. We will also continue to pursue our acquisition ambitions and opportunities which are value driven and complementary to our business objectives. I'm confident that our strong tenant relationship, clear strategy and implementation plans along with prudent capital management will help us deliver and grow from strength to strength.

On this note, I would like to thank our board members, tenants, partners, team and the stakeholder ecosystem for their trust and support in us. Your continued encouragement and support will inspire us to add value and deliver on our objectives.

Sincerely,

Ankur Gupta
Chairperson, Board of Directors

Manager of Brookfield India REIT

CEO'S MESSAGE

Stable Growth, Sustainable Future.

“ Our focus on redesigning workspaces to align with the needs of India's new-age workforce is integrated in various facets of our assets. ”

Dear Unitholders,

I would like to start on a grateful note, thanking our partners, tenants and unitholders for their unwavering support and confidence in Brookfield India Real Estate Trust. This report spells out our efforts to meet the commitments made to various stakeholders, none of which would have been a reality without the consistent efforts of my colleagues.

Charting the Path to Sustainable Growth

Our extensive experience in institutional asset management, along with our collaborative ethos, high quality portfolio, focus on technology and tenant relationships have enabled us to successfully navigate the challenging macro environment.

Consolidation of office portfolios and expansion demand from our existing tenants has powered leasing growth for Brookfield India REIT in the past few quarters. We have posted a stable and positive performance with growth in operating lease rentals and healthy rental collections. With leasing of 0.6 M sf in the first half of FY2023, our portfolio continues to show sustained performance. The robust leasing demand from existing clients contributes to 83% of total leasing, even while we continue to attract new tenants. We have a robust leasing pipeline of 2 M sf including new leasing and renewals that will continue our leasing momentum.

While interest rates are firming up globally, our deep lender relationships and high-quality asset portfolio, backed by strong institutional sponsorship, has led to a lower transmission while our long-dated maturity profile de-risks our balance sheet.

Delivering on Promises to Create Stakeholder Value

Our differentiated value proposition remains the key tenet of our future to meet the evolving needs of our marquee clientele. I am happy to share that all the developments we had promised to our tenants and their employees have been completed.

With the completion of Tower 11A in Candor TechSpace N2, we have created a distinctive work destination crafted to inspire a vibrant and progressive future. The new tower effectively blurs the line between a workspace and a place of wellbeing and community growth enhancing productivity and creativity.

We have also taken the first step towards opening new vistas of growth and expansion at our Candor TechSpace K1 campus with the commencement of construction of a retail led mixed use development. The 174,000 sf retail will be a F&B led retail destination with multiple restaurants, cafes, large and small format retail outlets, gaming center and an open terrace area, which will substantially enhance our occupier experience at Candor TechSpace K1. The 387,000 sf office development will comprise of high quality non SEZ office spaces diversifying our tenant offerings.

Building Tomorrow's Workspaces on Sustainable Foundations

India, with a large and diversified talent pool, continues to be a highly attractive destination for global companies who continue to engage with institutional landlords

like Brookfield India REIT. Our focus on redesigning workspaces to align with the needs of India's new-age workforce is integrated in various facets of our assets.

In our very first year of submission, we have been awarded a 5-star rating by GRESB, a global ESG benchmark. I am pleased to announce that the Company received an overall score of 90%, for operational buildings, 21% higher than the global average. For recently developed buildings, GRESB awarded Brookfield India REIT with a 96% score. We have outperformed global averages across each category, demonstrating our deep and ongoing commitment to sustainable development.

Brookfield India Real Estate Trust's holistic ESG program drives value across both its physical and social initiatives, reflecting a pledge to positively impact its surrounding environments by creating safe, sustainable, and vibrant communities across the lifecycle of real estate from design to operation. Brookfield India Real Estate Trust was also recognized as a sector leader for sustainable office development in Asia by GRESB. Decarbonization, transition to renewable energy, air and water management as well as waste management are among the key areas of our sustainability thrust and we made significant investments on the ESG front during the period under review.

Looking Ahead

The positive momentum for differentiated best in class commercial real estate is expected to continue in FY2023, backed by the solid structural foundation and gain in demand. The upswing in the market will also stem from a favourable outlook for technology services and global captives, for which India is a leading hub. With an acquisition pipeline of 6.4 M sf of operating class-A properties, we have provided all stakeholders with a visibility of the potential increase in scale and operating income.

With our tenants and their employees central to our business proposition, we are continuously enhancing our focus on innovating differentiated workspaces. Technology continues to be a major facilitator of our business strategy and we remain focused on creating new benchmarks to delight our clients through our sustainability-focused assets and placemaking experiences. We are quite buoyant about the future and are confident about our path ahead.

Sincerely,

Alok Aggarwal

OUR MANAGER

Our portfolio is managed by Brookprop Management Services Private Limited, an affiliate of BAM. Powered by a management team having extensive experience in real estate value chain, it efficiently manages our office parks to deliver noteworthy experiences to the tenants while ensuring value accretive growth for all stakeholders.

WHAT DRIVES US FORWARD

We are committed to deliver growth-centric ecosystem for leading companies across diverse sectors by owning and managing fully integrated, campus style and high-quality income producing, sustainable office parks in key gateway cities equipped with desirable amenities.

STRUCTURED TO POWER GROWTH AND SAFEGUARD UNITHOLDERS

BROOKFIELD INDIA REAL ESTATE TRUST STRUCTURE

VALUE DRIVERS

Key Strategic Drivers

Brookfield India REIT is established on strong foundations of the experience and expertise of its Sponsor Group in real estate globally. Leveraging their understanding of markets, tenants and trends, we have established a benchmark with our campuses which are designed to meet the evolving needs of 'new-age businesses' and appeal to millennials. With high-quality infrastructure and amenitized campuses, we have emerged as a hub for socio-economic development of all stakeholders.

WORLDWIDE MARKET EXPERTISE

The multi-decade global and Indian market expertise of our Sponsor Group and Manager in asset management provide us a significant competitive edge. The on-the-ground presence in key locations reinforced by their local market knowledge and capital management capabilities, position us to deliver on our long-term investment strategy in India.

HIGH-QUALITY PORTFOLIO IN STRATEGIC MICRO-MARKETS

We own highest quality Grade A office parks distinguished by their size and scale. Located in the key gateway markets of Mumbai, Gurugram, Noida and Kolkata with easy access to mass transportation and high entry barriers for new supply, they are highly demanded in their respective micro-markets.

PLACEMAKING COMPETENCIES

Our ability to deliver superior value proposition and exceptional service experience enables us to offer an all-encompassing workspace ecosystem for our tenants, making us landlord of choice. We ensure this through high-quality infrastructure, compelling amenities and providing a vibrant work environment to empower companies and have a positive impact on our communities.

DIVERSIFIED BLUE CHIP TENANT ROSTER

Our office parks with their size, scale and varied innovative service-offerings are 'business-critical' to tenants and their employees. This has attracted diverse marquee and as on September 30, 2022, 77% of the Gross Contracted Rental were contracted with multinational corporations.

SKILLED AND EXPERIENCED LEADERSHIP

Our Manager has integrated teams of seasoned professionals with extensive knowledge and experience in real estate and managing properties. Having an established track record in delivering long-term value, they steer our property management and investment decisions to unlock greater value. Their robust corporate governance framework and practices further ensure protection of interest of the Brookfield India REIT and its Unitholders.

SUSTAINABLE OPERATIONS

We are committed to operating responsibly. Adoption of noteworthy ESG practices have helped us minimize our impact on environment and ensure interests of all stakeholders.

STRONG BALANCE SHEET WITH STABLE CASH FLOWS

Our office parks generate stable cash flows and have an average lease expiry of 6.9 years, providing long-term visibility. Further, our operations are underpinned by a simple capital structure, low-cost asset-level debt with an average interest rate of 7.45% and undrawn facility of ₹2.1B as on September 30, 2022. These have ensured highest AAA stable credit rating by CRISIL and provides us significant headroom for growth.

With high-quality infrastructure and amenitized campuses, we have emerged as a hub for socio-economic development of all stakeholders.

ENVIRONMENT

Our Planet. Our Priority.

At Brookfield India REIT, environmental consciousness is deep-rooted in every facet of operation. We endeavor to provide experiences that are ecologically responsible and encourages sustainable best practices. We ensure this with campuses built with focus on climate change resilience and continually adopting innovative solutions to advance sustainability. We have further undertaken climate-related hazard assessments and scenario analysis, and necessary actions are being implemented.

PROGRESSING TO DECARBONIZE

We understand the impact of greenhouse gas (GHG) emissions and plan to achieve energy and emission reductions to become Net Zero by 2040. In line with this, we are undertaking assessments and accordingly integrating asset-level improvements into asset upgrade plans. Key measures implemented include advanced metering to monitor sources and uses of energy and integration of passive design features to lower our cooling and lighting requirements.

We are also focusing our efforts on reducing last mile emissions by encouraging Electric Vehicles (EV) usage through dedicated parking areas and charging points and partnering with innovative shared mobility service providers.

A strong focus is on transitioning our properties to 100% renewable energy. This will be ensured through a

combination of captive generation, purchasing renewable power from open market and purchasing renewable energy certificates for solar power plant installation. During H1 FY2023, Candor TechSpace N1 and N2 added 72 kWp and 191 kWp of solar power capacities respectively, taking total capacity across all facilities to 1,421 kWp as on September 30, 2022.

Upgradations as well as installations of air handling units (AHUs) have been a key area for optimizing energy consumption in the current period. Further, electrostatic filters were installed in AHUs of Candor TechSpace N2, Candor TechSpace G2 and Candor TechSpace N1. Apart from enhanced dust, pollen and other airborne particles filtration, it delivers increased airflow performance and appropriate cooling capacity, reducing the pressure drops with respect to conventional filters and thus contributing to 18–20% reduction in energy consumption.

AIR QUALITY MANAGEMENT

During H1 FY2023, we installed indoor air quality (IAQ) monitors in AHUs across our assets. Working in synchronization with the modulating type of fresh air dampers, and appropriate filtrations. It will ensure maintaining good air quality in line with our health and well-being commitments.

Case study

CLIMATE CONSCIOUS DESIGN

Integrating climate-related factors is a key design consideration of our assets. Focused on this, we have constructed a green terrace at our Candor TechSpace G2 asset. This has reduced water runoff by ~65% and relative building temperature by 6-8°C, thereby lowering cooling costs. It has further reduced external noise and has extended roof life by preventing weather-related damage. Besides these benefits, with its lush greenery and open ambience has become a popular breakout space for occupants.

OPTIMIZING WATER CONSUMPTION

In our journey towards water efficiency, we actively monitor water consumption. Investments have been made in low flow fixtures, advanced irrigation equipment and systems, rainwater harvesting structures, HVAC systems and sewage treatment plants (STPs) to minimize water withdrawals and consumption. We ensure using 100% of treated wastewater for non-contact purposes.

Horticulture being a significant area of water consumption, investments made in advanced irrigation techniques and automation have reduced water requirement. We are in the process of installing rain, moisture and evapotranspiration sensors in our assets to further reduce our water footprint. We also strive to optimize rainwater retention by installing permanent infiltration or collection features like vegetated swales, rain gardens and rainwater cisterns.

IN SEPTEMBER 2022, WE INAUGURATED AN EXCELLENCE CENTRE TO ENABLE CENTRALIZED MONITORING OF PARAMETERS ACROSS OUR GROWING PORTFOLIO. IT WILL MONITOR ENERGY PERFORMANCE INDEX AND WATER PERFORMANCE PARAMETERS.

WE ARE STRONGLY FOCUSED ON DEVELOPING IN A LEAN AND SUSTAINABLE MANNER WITH EFFORTS RELATED TO REDUCE, REUSE AND RECYCLE. IN LINE WITH THIS, RECYCLABLE MATERIALS LIKE OLD FAÇADE GLASS GLAZING, FALSE CEILING, UNUSED FLOOR TILES AND CHAIRS, TABLES, SOFA SET, FLOOR CARPET, PLANTERS WERE IDENTIFIED AND PUT TO USE AGAIN. EVEN WASTE PIPES WERE RECYCLED TO CREATE DECORATIVE PLANTER BASE, CONDUITS AND RACEWAYS. THE INITIATIVE HAS HELPED REDUCE THE WASTE GOING INTO LANDFILLS, ENABLED EFFICIENT REUSE OF AVAILABLE RESOURCES AND ALSO RECYCLING OF MATERIAL FOR DECORATIVE PURPOSES, RESULTING IN SIGNIFICANT TIME AND MONEY SAVINGS. THE TEAM MANAGED TO COMPLETE THE PROJECT IN JUST TWO MONTHS AND APPROXIMATELY ₹ 83 LAKHS WERE SAVED THROUGH IT.

105,700 KL
FRESHWATER USE
REDUCTION WITH STPs

CIRCULARITY AND ART

CANDOR TECHSPACE N1 ADOPTED AN INNOVATIVE MEASURE TO REMOVE PLASTIC WASTE AND RESTORE EARTH'S ENVIRONMENT. UNDER THE INITIATIVE, 1,200 KGS OF PLASTIC ROPES WERE MADE FROM DISCARDED PACKAGING MATERIALS AND WEAIVED INTO A 1,900 SQ. FT. WALL ART INSTALLATION. IT TOOK 15 WEAVING EXPERTS, 90 DAYS AND UNIMAGINABLE CONVICTION TO BRING THIS ART TO LIFE.

MANAGING WASTES EFFECTIVELY

Our waste management effort is focused around 3R – reduce, recycle and reuse. Our properties have waste considerations integrated right from the design stage to ensure circularity. Only certified and low emission materials are used in construction which are locally procured to reduce transport emission.

We have eliminated single-use plastic from food courts and common areas. We are partnering with tenants in managing waste by setting up recycled product kiosks and organizing awareness events. Further, we are also enabling our value chain partners in circular economy efforts.

PROMOTING BIODIVERSITY

Thriving biodiversity is a striking feature of our campuses. This has been achieved by engaging global design experts for green roofs, biophilic breakout zones, urban square foot farms and flowering gardens. We refrain from investing in sites in proximity to protected areas or having high biodiversity value. Periodic census, mapping and tagging of plants and trees are done resulting in increased soft scape area, native plant species and survival rates.

In a bid to improve biodiversity, we had placed hand made bird nests across our campuses to help the native species thrive. Candor TechSpace K1 has recently initiated fish cultivation in the water bodies to eat and remove the larvae of mosquitoes which breeds in water, and thus decrease the risk of vector borne diseases.

SOCIAL

Addressing the Needs of Stakeholders

At Brookfield India REIT, collaborative working is a way to ensuring shared success. We actively engage with all our stakeholders to identify their needs and priorities and adopt a structured approach to address them. These ensure value creation for all and enable us to improve our ESG performance.

SOCIAL

Redefining Workplace Experiences

The strategic importance of offices has today surpassed the realm of being a workplace. It is a place where organization can bring together its people for collaboration and building relations, spreading culture and attracting and retaining talent. At Brookfield India REIT, we are proactively innovating and reimagining real estate to create experiences that can achieve this.

RECONNECTING TO REBUILD RELATIONS

Strong and positive relations with tenants is a distinctive feature of all our campuses. We do this with sustained engagements and activities, which stopped during pandemic and lockdowns. Now with normalcy returning and tenants returning back to their preferred work destination, we focused on rebuilding the camaraderie. We ceremoniously welcomed them back with special events, beverages and other surprises. A total of three such welcome events were held across our campuses, spreading positivity and joy among returning employees.

ENHANCING WORKPLACE DESIRABILITY

In a new normal world, we are progressing towards creating workplaces where our people and communities truly want to be and which can truly be called a cultural home. We are doing so by supporting unique works that can deliver cultural experiences. Focused on this, The Live Project, was introduced to provide young artists a platform to showcase their talent at our campuses. A live gig and a stand-up comedy act were hosted at Candor TechSpace G2 and Candor TechSpace N2 which was attended by about 500 people.

SOCIAL

Empowering People to Deliver Value

Our people drive our success and we seek to create a positive, open and inclusive work environment that enables our employees to develop professionally. We ensure this by committing to their health and well-being, learning and development and providing necessary career development support. At the same time, we align them to our vision and cultural policy framework targeted at reimagining workplaces.

PROMOTING A SKILLED AND DIVERSE WORKFORCE

A focus on diversity and inclusion reinforces our culture of collaboration and strengthens our ability to maintain an engaged workforce. We value our people and support their long-term success by seeking opportunities for them to grow and develop professionally. We encourage a workplace culture where equal opportunity is provided to all without any discrimination. This enables us to attract diverse high-quality talent and integrate different viewpoints, which is key to innovating in our strive for reimagining workplaces. Over the years, our primary focus has been on gender diversity. Our efforts have led to a significant increase in female representation at the senior levels.

We are also focused on providing our employees with opportunities to grow, learn and develop new skills and stay updated through a robust training framework. This includes in-house and management training, leadership programs, safety trainings, technical and behavioral training. Leadership profiling is conducted for employees with designations of General Managers and above. Mandatory trainings on anti-bribery and corruption and prevention of sexual harassment (POSH) are conducted virtually every quarter.

BUILDING A TEAM OF ENGAGED PEOPLE

Active engagement with employees helps us in identifying and meeting their needs. We ensure this through open door culture and a quarterly newsletter 'PULSE' to keep them updated. Additionally, we conduct engagement surveys based on various development needs and regularly recognize and appreciate employees for their contributions.

We also arranged employee meets under the theme of Fun@Workplace. This included Friday Fiestas for promoting great conversation over fabulous meals, Kite-Flying Competition on Independence Day and gifting coupons/vouchers to employees on their birthdays. These efforts have helped promote harmony, openness and high engagement levels, as evident in our ability to attract and retain talent.

PROMOTING HIGH HEALTH AND SAFETY STANDARDS

Our goal is to have zero serious safety incidents by working toward implementing consistent health and safety principles across the organization. This is achieved through a robust occupational health and safety management system under which 100% of employees are covered. We also conduct regular safety related programs and training, enabling us to maintain a track record of no work-related injury. Further, during H1 FY2023, we organized a month-long full body health check-up across Fortis Gurugram, Noida and Delhi regions.

13. BRIEF DETAILS OF MATERIAL AND PRICE SENSITIVE INFORMATION

Except as disclosed to the stock exchanges during the half year ended September 30, 2022, there is no other material and price sensitive information involving Brookfield India REIT.

14. BRIEF DETAILS OF MATERIAL LITIGATIONS AND REGULATORY ACTIONS WHICH ARE PENDING, AGAINST BROOKFIELD INDIA REIT, SPONSOR(S), MANAGER OR ANY OF THEIR ASSOCIATES AND SPONSOR GROUP(S) AND THE TRUSTEE, IF ANY, AS AT THE END OF THE HALF YEAR

This section of the Report contains disclosures, as on September 30, 2022, on all:

- pending title litigation and irregularities pertaining to the Portfolio and pending criminal matters, regulatory actions and material (as set out below) civil/ commercial matters against Brookfield India REIT, the Sponsor, the Manager or any of their Associates, Asset SPVs, CIOP, the Sponsor Group and the Trustee (collectively, "Required Parties"); and
- pending direct tax, indirect tax and property tax matters against the Required Parties in a consolidated manner.

For the purposes of identifying "associates" with respect to disclosures to be made in the report under the REIT Regulations, the definition of 'associates' as set out in the REIT Regulations have been relied on except sub-clause (ii) of Regulation 2(1)(b) of the REIT regulations, which requires any person who controls, both directly and indirectly, the said person to be identified as an associate. With respect to the aforesaid, only entities which directly control Brookfield India REIT, Sponsor or Manager, as applicable, have been considered.

All disclosures with respect to pending civil/ commercial matters, regulatory actions, criminal litigation and tax matters against BAM have been made in accordance with the materiality threshold separately disclosed below.

Except as disclosed in below, there is no pending title litigation or irregularity, criminal litigation, regulatory action and civil/ commercial matter (subject to the materiality thresholds set out below) against the Required Parties:

- Title irregularities (including title litigation) pertaining to the Portfolio**
Nil
- Material litigation, criminal litigation and regulatory actions pending against Brookfield India REIT, its Associates, the Asset SPVs and CIOP**
For the purpose of disclosure of pending civil/ commercial litigation against Brookfield India REIT, its Associates, the Asset SPVs and CIOP, such matters exceeding ₹89.92M (being 1% of the combined total income of Brookfield India REIT as of March 31, 2022) have been considered material and proceedings where the amount is not determinable but the proceeding is considered material by the Manager from the perspective of Brookfield India REIT, have also been disclosed.

As of September 30, 2022, Brookfield India REIT, its Associates, the Asset SPVs and CIOP do not

have any criminal litigation, regulatory actions or material civil/ commercial litigation pending against them.

III. Material litigation, criminal litigation and regulatory actions pending against the Sponsor and its Associates

For the purpose of disclosure of pending civil/ commercial litigation against the Sponsor and its Associates, such matters exceeding ₹455.25M (being 5% of the net worth of the Sponsor as of March 31, 2022) have been considered material and proceedings where the amount is not determinable but the proceeding is considered material by the Manager from the perspective of Brookfield India REIT have also been disclosed.

As of September 30, 2022, the Sponsor and its Associates do not have any criminal litigation, regulatory action or any material civil/ commercial litigation pending against them.

IV. Material litigation, criminal litigation and regulatory actions pending against the Sponsor Group

For the purpose of disclosure of pending civil/ commercial litigation against the Sponsor Group (excluding the Sponsor and BAM), such matters exceeding ₹89.92M (being 1% of the combined total income of Brookfield India REIT as of March 31, 2022) have been considered material and proceedings where the amount is not determinable but the proceeding is considered material by the Manager have been disclosed.

As of September 30, 2022, the Sponsor Group (excluding the Sponsor and BAM) do not have any criminal litigation, regulatory action or material civil/ commercial litigation pending against them.

With respect to pending civil/ commercial, regulatory actions, criminal litigation and tax litigation against BAM (which is currently listed on NYSE and TSX), the disclosure below has been made on the basis of the public filings and periodic disclosures made by BAM in accordance with applicable securities law and stock exchange rules. The threshold for identifying material matters in such disclosures is based on periodically reviewed thresholds applied by the independent auditors of BAM in expressing their opinion on the financial statements and is generally linked to various financial metrics of BAM, including total equity, materiality for revenue and operating expenses which is based on funds from operations. The

latest audit plan, prepared by the independent auditors of BAM, comprising such threshold has been approved by the audit committee and board of directors of BAM and set such threshold at USD 1.5B.

As of September 30, 2022, BAM is contingently liable with respect to litigation and claims that arise in the normal course of business. It is not reasonably possible that any of the ongoing litigation could result in a material settlement liability.

V. Material litigation, criminal litigation and regulatory actions pending against the Manager and its Associates

For the purpose of disclosure of pending civil/ commercial litigation against the Manager and its Associates, such matters exceeding ₹48.10M (being 5% of the total income of the Manager as of March 31, 2022) have been considered material and proceedings where the amount is not determinable but the proceeding is considered material by the Manager from the perspective of Brookfield India REIT, have also been disclosed.

As of September 30, 2022, the Manager and its Associates do not have any criminal litigation, regulatory action or material civil/ commercial litigation pending against them.

VI. Material litigation, criminal litigation and regulatory actions pending against the Trustee

For the purpose of pending civil/ commercial litigation against the Trustee, matters involving amounts exceeding ₹11.615M (being 5% of the profit after tax of the Trustee for FY2022) have been considered material.

As of September 30, 2022, the Trustee does not have any criminal litigation, regulatory action or material civil/ commercial litigation pending against it.

VII. Tax Matters

Details of all direct tax, indirect tax and property tax matters with respect to the Required Parties as of September 30, 2022 is set forth:

For the purposes of disclosure of tax matters against BAM, see the materiality threshold adopted for disclosure of civil/ commercial litigation, regulatory actions, criminal litigation and tax litigation under "Material litigation, criminal litigation and regulatory actions

pending against the Sponsor Group", on this page above.

Nature	Number	Amount involved (in ₹ M)
Brookfield India REIT, Asset SPVs and CIOP		
Direct tax	47	1,745.19
Indirect tax	5	359.04
Sponsor Group		
Direct tax	1	204.79

The direct tax matters are primarily in the nature of demand notices and/ or orders issued by the income tax authorities alleging computation of taxable income on account of certain additions/ disallowances, deduction of tax incentive and classifications of income resulting in additional demand of TDS/ income tax. Such matters are pending before the relevant tax authorities including income tax appellate tribunal. These also include matters where the income- tax authorities have initiated penalty proceedings but not issued any penalty order / concluded the proceedings.

The indirect tax matters are primarily in the nature of demand notices and/ or orders (excluding show cause notices where no demand has been raised yet and the order is pending) issued by the indirect tax authorities alleging non-payment of correct amount of value added tax or in the nature of ex-parte order. Such matters are pending before the indirect tax authorities, including indirect tax appellate tribunals.

15. RISK FACTORS

The risks and uncertainties described below are not the only risks that we face or may face or not the only ones relevant to Brookfield India REIT, the Asset SPVs, CIOP or in the industry we operate. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations and financial condition.

Risks Related to our Organization and Structure

- The Manager does not provide any assurance or guarantee of any distributions to the Unitholders. The ability of our Manager to make distributions to the Unitholders may be affected by several factors including among other things:
 - The cash flows from operations generated by the Asset SPVs and CIOP
 - The debt service costs and other liabilities of the Asset SPVs, including terms of the financing and agreements

- The working capital needs of the Asset SPVs
- The extent of lease concessions, rent free periods, and incentives given to tenants to attract new tenants and retain existing tenants
- The terms of and any payments under any agreements governing land leased or co-developed by the Asset SPVs
- Business, results of operations and financial condition of the Asset SPVs
- Applicable laws and regulations, which may restrict the payment of dividends by the Asset SPVs or distributions by us

- The ability of the Manager to acquire or dispose of assets or explore new investment opportunities or avail additional debt is subject to conditions provided in the REIT Regulations. Further, laws governing REITs in India are in their early stages and relatively untested.
- We have incurred a significant amount of debt in the operation of our business, and our cash flows and results of operations could be adversely affected by required repayments or related interest and other risks assumed in connection with procuring debt financing. Our inability to service debt may adversely affect distributions to Unitholders.

Risks Related to Our Business and Industry

- Our business and profitability are dependent on the performance of the commercial real estate market in India as well as the general economic, demographic and political conditions. Fluctuations in the general economic, market and other conditions may affect the commercial real estate market in India and in turn, our ability to lease office parks to tenants on favorable terms. The commercial real estate market in India may particularly be dependent on market prices for developable land and the demand for leasing of finished offices, both of which will continue to have a significant impact on our business, results of operations and financial condition.
- We are dependent on a limited number of tenants and sectors for our significant portion of our revenue and any adverse developments affecting such tenants or sectors may have an adverse effect on our business, results of operations and financial condition. On account

of a majority of our assets being registered as SEZ for IT and IT enabled services, the tenants in the technology sector accounted for approximately half of the leased area of our assets.

- A significant portion of our revenue is derived from leasing activities at Candor TechSpace G2 and the NCR and any adverse development relating to Candor TechSpace G2 or the micro-market in which they arise located may adversely affect our business, results of operations and financial condition.
- The audit report of the Statutory Auditor on the Financial Statements includes emphasis of matter.
- Our dependence on rental income may adversely affect our profitability, ability to meet debt and other financial obligations and the Manager's ability to make distributions to Unitholders.
- The Manager cannot assure you that it will be able to successfully complete future acquisitions or efficiently manage the assets that we may acquire in the future. Further, any future acquisitions may be subject to acquisition related risks.
- There can be no assurance that the Under Construction Area or Future Development Potential will be completed in its entirety in accordance with anticipated timelines or cost, or that we will achieve the results expected from such projects, which may adversely affect our reputation, business, results of operations and financial condition.
- The Manager may be unable to renew lease agreements or lease vacant area on favorable terms or at all, which could adversely affect our business, results of operations and cash flows.
- The extent to which COVID-19 may affect our business and operations in the future is uncertain and cannot be predicted.
- The actual rent received for the assets may be less than the Leasing Rent or the market rent and we may experience a decline in realized rent rates from time to time, which may adversely affect our business, results of operations, cash flows and distributions.

14. Brookfield India REIT, the Asset SPVs, CIOP, the Manager and the Sponsor have entered into several related party transactions, which could potentially pose a conflict of interest. Certain of our service providers or their affiliates (including accountants, consultants, property managers and investment or commercial banking firms) may also provide goods or services to or have business or other relationships with Brookfield and payments by us to such service providers may indirectly benefit Brookfield. The Manager may also provide property management and facility management services to other members of Brookfield. The Manager may hire employees from Brookfield and such employees may also work on other projects of Brookfield, and therefore, conflicts may arise in the allocation of the employees and the employees' time.
15. The valuation report on the assets in our Portfolio is only indicative in nature as it is based on a set of assumptions and may not be representative of the true value of the Portfolio. The valuation report is based on certain assumptions relating to the nature of the property, its location, lease rental forecasts and valuation methodologies and these assumptions add an element of subjectivity to these valuations and hence may not be accurate. Further, valuations do not necessarily represent the price at which a real estate asset would sell, since market prices of assets can only be determined by negotiation between a willing buyer and a seller.
16. We may be subject to certain restrictive covenants under the financing agreements that could limit our flexibility in managing our business or to use cash or other assets or to make distributions to Unitholders.
17. We have a limited operating history and may not be able to operate our business successfully, achieve our investment objectives or generate sufficient cash flows to make or sustain distributions.
18. The Manager may not be able to successfully meet working capital or capital expenditure requirements of the Portfolio.
19. We have certain contingent liabilities as given in the Financial Statements, which if materialize, may adversely affect our results of operations, financial condition and cash flows.
20. Non-compliance with, and changes in, environmental, health and safety laws
- and regulations could adversely affect the development of the Portfolio and our financial condition. Our business and operations are subject to compliance with various laws, and any change in law or non-compliance in the future may adversely affect our business and results of operations. In addition to compliance with the REIT Regulations, we are also subject to compliance with applicable foreign exchange regulations due to the Sponsor and Manager not being Indian owned and controlled.
21. Any change in such laws or non-compliance or inability to obtain, maintain or renew required regulatory approvals and permits by our Assets SPVs or CIOP in a timely manner or at all may adversely affect our business, financial condition and results of operations.
22. Our Asset SPVs and CIOP are subject to ongoing compliance requirements under various laws, and there have been certain past instances of non-compliance, any change in law or non-compliance in the future may adversely affect our business and results of operations.
23. Candor TechSpace N1 and Candor TechSpace N2 is located on land leased from NOIDA for a term of 90 years and are required to comply with the terms and conditions provided in the lease deeds, failing which NOIDA may terminate the lease or take over the premises. Also, the Manager may not be able to renew the leases with NOIDA upon their expiry or premature termination.
24. Majority of the assets in the Portfolio are located on land notified as SEZs and a few are registered as private IT parks and the relevant Asset SPVs are required to comply with the SEZ Act and the rules made thereunder along with their respective conditions of registration as private IT parks.
25. The title and development rights or other interests over land on which the Portfolio are located may be subject to legal uncertainties and defects which may have an adverse effect on our ability to own the assets and result in us incurring costs to remedy and cure such defects.
26. The Manager may not be able to control our operating costs, or the direct expenses may remain constant or increase, even if income from the Portfolio decreases, resulting in an adverse effect on our business and results of operation.
27. The Manager and the CIOP utilize the services of certain third party operators to manage and operate the Portfolio. Any deficiency or interruption in their services may adversely affect our business.
28. We are exposed to a variety of risks associated with technology, safety, security and crisis management which may disrupt our business, result in losses or limit our growth.
29. We may be subject to the Competition Act, 2002 and any adverse application or interpretation of the law could adversely affect our business
30. We do not own the trademark or logo for the "Brookfield India Real Estate Trust" or "Brookfield India REIT" and hence our inability to use or protect these intellectual property rights may have an adverse effect on our business and results of operations.
31. We may be required to record significant charges to earnings in the future upon review of the Portfolio for potential impairment.
32. We operate in a competitive environment and increased competitive pressure could adversely affect our business and the ability of the Manager to execute our growth strategy.
33. CIOP is not an SPV under the REIT Regulations and as such it is not required to comply with the mandatory distribution requirements under the REIT Regulations.
34. There are outstanding litigation proceedings involving our Asset SPVs and our sponsor group, which may adversely affect our financial condition.
35. The Manager may not be able to maintain adequate insurance to cover all losses that we may incur.
36. Lease agreements with some of the tenants in the Portfolio may not be adequately stamped or registered, and consequently, the Manager may be unable to successfully litigate over such deeds in the future and penalties may be imposed on us.
37. If the Manager is unable to maintain relationships with other stakeholders in the Portfolio, our results of operation and financial condition may be adversely affected.
38. Land is subject to compulsory acquisition by the Government and compensation in lieu of such acquisition may be inadequate.
- Risks Related to the Relationships with the Sponsor and the Manager**
39. The Sponsor may cease to act as our sponsor in the future.
40. We and parties associated with us are required to adhere to the eligibility conditions specified under Regulation 4 of the REIT Regulations as well as the certificate of registration on an ongoing basis. We may not be able to ensure such ongoing compliance by the Sponsor, the Manager and the Trustee, which could result in the cancellation of our registration.
41. The Sponsor and Sponsor Group will be able to exercise significant influence over certain of our activities and the interests of the Sponsor and Sponsor Group may conflict with the interests of other Unitholders.
42. Conflicts of interest may arise out of common business objectives shared by the Manager, the Sponsor, the Sponsor Group and us. The Manager also provides property management services to other assets held by Brookfield, which are of a similar type as those held by the Asset SPVs. Further, we may be subject to potential conflicts of interest arising out of our relationship with the Sponsor, Sponsor Group and their affiliates and the Manager, and may enter into transactions with related parties in the future and the Manager cannot assure you that such potential conflicts of interest will always be resolved in favour of Brookfield India REIT and the Unitholders.
- Our Manager has adopted the policy on related party transactions and conflicts of interest to mitigate such potential conflicts of interest instances. While our strategy will be to pursue substantially stabilized real estate investment opportunities, there can be no assurance that all potentially suitable investment opportunities that come to the attention of Brookfield will be made available to us.
43. We depend on the Manager and its personnel for our success and to manage our business and assets. Any failure by the Manager to perform satisfactorily could adversely affect our results of operations and financial condition. Further, we may not find a suitable replacement for

the Manager if the Investment Management Agreement is terminated or if key personnel cease to be employed by the Manager or otherwise become unavailable.

Risks Related to ownership of Units and investments in India

44. Any downgrading of India's sovereign debt rating by a domestic or international rating agency could adversely affect our ability to obtain financing and, in turn, adversely affect our business.
45. The reporting requirements and other obligations of real estate investment trusts post-listing are still evolving. Accordingly, the level of ongoing disclosures made to and the protections granted to the Unitholders may be more limited than those made to or available to the shareholders of a company that has listed its equity shares upon a recognized stock exchange in India.
46. Given the requirements under the REIT Regulations, it may be difficult for public Unitholders to remove the Trustee as the Sponsor Group holds a majority of the Units.
47. Our business is dependent on economic growth in India and financial stability in Indian markets, and any slowdown in the Indian economy or in Indian financial markets could have an adverse effect on our business, results of operations, financial condition and the price of our Units.
48. Fluctuations in the exchange rate of the Indian Rupee with respect to other currencies will affect the foreign currency equivalent of the value of the Units and any distributions.

49. Trusts such as the Brookfield India REIT may be dissolved, and the proceeds from the dissolution thereof may be less than the amount invested by the Unitholders.
50. Investors may be subject to Indian taxes arising out of capital gains on the sale of Units.
51. Unitholders will not have the right to redeem their Units.
52. The Units may also experience price and volume fluctuations and there may not be an active or liquid market for the Units.
53. NAV per Unit may be diluted if further issues are priced below the current NAV per Unit.
54. Any future issuance of Units by us or sales of Units by the Sponsor Group or any of the other significant Unitholders may adversely affect the trading price of the Units.
55. Our rights and the rights of our Unitholders to recover claims against the Manager or the Trustee are limited.

Independent Auditor's Report

on Review of Condensed Standalone Interim Financial Statements

To The Board of Directors of
Brookprop Management Services Private Limited
(the "Investment Manager")

(Acting in capacity as the Investment Manager of Brookfield India Real Estate Trust)

INTRODUCTION

1. We have reviewed the accompanying unaudited Condensed Standalone Interim Financial Statements of **Brookfield India Real Estate Trust** ("the REIT"), ("the Condensed Standalone Interim Financial Statements") which comprise of the following:
 - the unaudited Condensed Standalone Balance Sheet as at September 30, 2022;
 - the unaudited Condensed Standalone Statement of Profit and Loss (including other comprehensive income) for the quarter and half year ended September 30, 2022;
 - the unaudited Condensed Standalone Statement of Cash flow for the quarter and half year ended September 30, 2022;
 - the unaudited Condensed Standalone Statement of Changes in Unitholders' Equity for the half year ended September 30, 2022;
 - the unaudited Statement of Net Assets at Fair Value as at September 30, 2022;
 - the unaudited Statement of Total Returns at Fair Value for the half year ended September 30, 2022;
 - the unaudited Condensed Statement of Net Distributable Cash Flow for the quarter and half year ended September 30, 2022; and
 - summary of the significant accounting policies and select explanatory notes

These Condensed Standalone Interim Financial Statements are being submitted by the REIT pursuant to the requirements of Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder read with SEBI Circular No. CIR/IMD/DF/146/2016 dated December 29, 2016 (the "REIT Regulations").

2. The Condensed Standalone Interim Financial Statements, which is the responsibility of the Investment Manager and approved by the Board of Directors of the Investment Manager, have been prepared in accordance with the requirements of the REIT Regulations; Indian Accounting Standard

34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the REIT Regulations. Our responsibility is to express a conclusion on the Condensed Standalone Interim Financial Statements based on our review.

Scope of Review

3. We conducted our review of the Condensed Standalone Interim Financial Statements in accordance with the Standard on Review Engagements (SRE) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of the Investment Manager's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing issued by ICAI and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

4. Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Standalone Interim Financial Statements, have not been prepared in accordance with the REIT Regulations, Ind AS 34, prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the REIT Regulations.

Emphasis of matter

5. We draw attention to Note 10(a)(i) which describe the presentation of "Unit Capital" as "Equity" to comply with REIT Regulations. Our conclusion is not modified in respect of this matter.

E	NAV per unit (C/D)	266.98	336.85	272.33	333.81

1. Measurement of fair values

The fair value of investments in SPVs is primarily determined basis the fair value of the underlying investment property, along with fair value of other assets and liabilities of the respective SPV's as at 30 September 2022 and 31 March 2022. The fair value of investment properties and investment property under development has been determined by independent external registered property valuer, having appropriately recognized professional qualifications and recent experience in the location and category of the properties being valued.

Valuation technique

The fair value measurement of the investment properties and investment property under development has been categorized as a Level 3 fair value based on the inputs to the valuation technique used.

The valuers have followed a discounted cash flow method. The discounted cash flow method considers the present value of net cash flows to be generated from the respective properties, taking into account the expected rental growth rate, vacancy period, occupancy rate, average sq. ft. rent and lease incentive costs. The expected net cash flows are discounted using the risk adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality, lease terms and investors expected return.

2. Break up of Net asset value

Particulars	As at 30 September 2022	As at 31 March 2022
Fair value of investments in SPVs	111,126.16	110,102.45
Add: Other assets	1,857.65	1,803.10
Less: Liabilities	(108.52)	(51.06)
Net Assets	112,875.29	111,854.49

3. The Trust holds investment in SPVs which in turn hold the properties. Hence, the breakup of property wise fair values has been disclosed in the Consolidated financial statements.

Net Distributable Cash Flows (NDCF) pursuant to guidance under Paragraph 6 to SEBI circular No. CIR/IMD/DF/146/2016

- The difference between SPV level NDCF and REIT level NDCF is primarily on account of utilization of opening cash at the SPV level for the half year/ year ended 31 March 2022 and quarter/ half year ended 30 September 2021.
- The difference between REIT level NDCF and distributions to unitholders for the half year ended 31 March 2022 is on account of utilization of surplus NDCF post distribution to unitholders till 30 September 2021.

Notes:

- The Board of Directors of the Manager to the Trust, in their meeting held on 07 November 2022, have declared distribution to Unitholders of ₹5.10 per unit which aggregates to ₹1,708.94 million for the quarter ended 30 September 2022. The distributions of ₹5.10 per unit comprises ₹2.42 per unit in the form of interest payment on shareholder loan and CCD's, ₹0.09 per unit in the form of dividend, ₹2.57 per unit in the form of repayment of SPV debt and the balance ₹0.02 per unit in the form of interest on fixed deposit.
Along with distribution of ₹1,708.94 million/ ₹5.10 per unit for the quarter ended 30 June 2022, the cumulative distribution for the half year ended 30 September 2022 aggregates to ₹3,417.88 million/ ₹10.20 per unit.
- NDCF for the quarter and half year ended 30 September 2022 is computed in accordance with the NDCF framework under the Distribution Policy as approved in the Offer Document.

Notes to the Standalone Financial Statements

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of Condensed Standalone financial statements

The Interim Condensed Standalone Financial Statements (Condensed Standalone Financial Statements) of Brookfield India REIT comprises:

- the Condensed Standalone Balance Sheet,
- the Condensed Standalone Statement of Profit and Loss (including other comprehensive income),
- the Condensed Standalone Statement of Cash Flows,
- the Condensed Standalone Statement of Changes in Unitholders' Equity,
- a summary of significant accounting policies and other explanatory information.

Additionally, it includes the Statement of Net Assets at Fair Value, the Statement of Total Returns at Fair Value, the Statement of Net Distributable Cash Flow of Brookfield India REIT and other additional financial disclosures as required under the SEBI (Real Estate Investment Trusts) Regulations, 2014. The Condensed Standalone Financial Statements were authorized for issue in accordance with resolutions passed by the Board of Directors of the Manager on behalf of the Brookfield India REIT on 07 November 2022. The Condensed Standalone Financial Statements have been prepared in accordance with the requirements of SEBI (Real Estate Investment Trusts) Regulations, 2014, as amended from time to time read with the SEBI circular number CIR/IMD/DF/146/2016 dated 29 December 2016 ("REIT Regulations"); Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting", as defined in Rule 2(1) (a) of the Companies (Indian Accounting Standards) Rules, 2015 ('Ind AS') to the extent not inconsistent with the REIT Regulations (refer note 10(a)(i) on presentation of "Unit Capital" as "Equity" instead of compound instruments under Ind AS 32 - Financial Instruments: Presentation), read with relevant rules issued thereunder and other accounting principles generally accepted in India.

Accordingly, these Condensed Standalone Financial Statements do not include all the information required for a complete set of financial statements. These Condensed Standalone Financial Statements should be read in conjunction with the standalone financial statements and related notes included in the Trust's standalone financial statements under IND AS for the year ended 31 March 2022. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Condensed Standalone Financial Statements are presented in Indian Rupees in Millions, except when otherwise indicated.

2.2 Significant accounting policies

a) Functional and presentation currency

The Condensed Standalone Financial Statements are presented in Indian rupees, which is Brookfield India REIT's functional currency and the currency of the primary economic environment in which Brookfield India REIT operates. All financial information presented in Indian rupees has been rounded off to nearest million except unit and per unit data.

b) Basis of measurement

The Condensed Standalone Financial Statements have been prepared on historical cost basis except for certain financial instruments measured at fair value at the end of each reporting period as explained in the accounting policies below.

The Condensed Standalone Financial Statements have been prepared on a going concern basis.

c) Use of judgments and estimates

The preparation of Condensed Standalone Financial Statements in conformity with generally accepted accounting principles in India (Ind AS), to the extent not inconsistent with the REIT regulations, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

the estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the Condensed Standalone Financial Statements is included in the following notes:

- (i) Presentation of "Unit Capital" as "Equity" in accordance with the REIT Regulations instead of compound instrument (Note 10)
- (ii) Estimation of uncertainties relating to the global health pandemic from Covid-19 (Note 25)
- (iii) Impairment of investments and loans in subsidiaries
- (iv) Fair valuation and disclosures
SEBI Circulars issued under the REIT Regulations require disclosures relating to net assets at fair value and total returns at fair value.

d) Current versus non-current classification

Brookfield India REIT presents assets and liabilities in the Condensed Standalone Balance Sheet based on current/ non-current classification:

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the normal operating cycle.
- it is held primarily for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Brookfield India REIT classifies all other assets as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in normal operating cycle of Brookfield India REIT;

- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Brookfield India REIT does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Brookfield India REIT classifies all other liabilities as non-current.

Current assets/liabilities include current portion of non-current financial assets/ liabilities respectively. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, Brookfield India REIT takes into account the characteristics of the asset or liability and how market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Inputs to fair value measurement techniques are disaggregated into three hierarchical levels, which are directly based on the degree to which inputs to fair value measurement techniques are observable by market participants:

- Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2: Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the asset's or liability's anticipated life.

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs in determining the estimate.

Fair value measurement framework is adopted by Brookfield India REIT to determine the fair value of various assets and liabilities measured or disclosed at fair value.

f) Impairment of non-financial assets

Brookfield India REIT assesses, at each reporting date, whether there is an indication that a non-financial asset other than deferred tax assets may be impaired. If any indication exists, or when annual impairment testing for an asset is required, Brookfield India REIT estimates the asset's recoverable amount. Goodwill is tested annually for impairment.

An impairment loss is recognized in the Condensed Standalone Statement of Profit and Loss if the carrying amount of an asset or its cash-generating unit (CGU) exceeds its recoverable amount. Impairment loss recognized in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU on a pro rata basis. A CGU is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups.

Impairment losses are recognized in the Condensed Standalone Statement of Profit and Loss, unless it reverses previous revaluation credited to equity, in which case it is charged to equity.

Goodwill (if any) arising from a business combination is allocated to CGUs or group of CGUs that are expected to benefit from the synergies of the combination.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. In estimating value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs of disposal, recent market transactions are taken into account. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets, such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized.

g) Investment in SPV's

The Trust has elected to recognize its investments in SPVs at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements.'

The details of such investment are given in note 3.

Assets representing investments in SPVs are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable, such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

h) Foreign currency transactions

Items included in the financial statements of the Brookfield India REIT are measured using the currency of the primary economic environment in which the Brookfield India REIT operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Brookfield India REIT functional and presentation currency.

Foreign currency transactions in currencies other than the functional currency are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains or losses resulting from the settlement of such

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at reporting period end exchange rates are generally recognized in the Statement of profit and loss.

i) Errors, estimates and change in accounting policy

The Brookfield India REIT revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the Condensed Standalone Financial Statements. Changes in accounting policies are applied retrospectively, wherever applicable.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to profit or loss is applied prospectively in the period(s) of change. Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

j) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets - Recognition

All financial assets are recognized initially at fair value (except for trade receivables which are initially measured at transaction price) plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classification and subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

■ Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss.

■ Debt instruments at fair value through other comprehensive income (FVOCI)

A 'debt instrument' is classified as at the FVOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss is recognized in statement of profit and loss. On derecognition of the asset, cumulative gains or losses previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVOCI debt instrument is reported as interest income using the EIR method.

■ Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

In addition, the Brookfield India REIT may elect to designate a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ₹ accounting mismatch'). The Brookfield India REIT has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in Statement of profit or loss.

■ Equity instruments measured at fair value through other comprehensive income (FVOCI)

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Brookfield India REIT may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Brookfield India REIT makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Brookfield India REIT decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Brookfield India REIT may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in Statement of profit and loss.

(ii) Financial Assets - Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e., removed from the Brookfield India REIT balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Brookfield India REIT has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Brookfield India REIT has transferred substantially all the risks and rewards of the asset, or (b) the Brookfield India REIT has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(iii) Impairment of financial assets

Brookfield India REIT recognizes loss allowance using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component and lease receivables is measured at an amount equal to lifetime ECL. For all financial assets with contractual cash flows other than trade receivable and lease receivables, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date, is recognized as an impairment gain or loss in the Statement of Profit and Loss.

Trade Receivables are generally written off against the allowance only after all means of collection have been exhausted and the potential for recovery is considered remote.

(iv) Financial liabilities - Recognition and Subsequent measurement

Brookfield India REIT financial liabilities are initially measured at fair value less any attributable transaction costs. Subsequent to initial measurement, these are measured at amortized cost using the effective interest rate ('EIR') method or at fair value through profit or loss (FVTPL).

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

Brookfield India REIT financial liabilities include trade and other payables, Loans and borrowings including bank overdrafts.

The measurement of financial liabilities depends on their classification, as described below:

■ Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through Statement of profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through Statement of profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Brookfield India REIT that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in Statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through Statement of profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains or losses are not subsequently transferred to statement of profit and loss. However, the Brookfield India REIT may transfer the cumulative gains or losses within equity. All other changes in fair value of such liability are recognized in Statement of profit and loss. The Brookfield India REIT has not designated any financial liability as at fair value through profit or loss.

■ Financial liabilities at amortized cost

Financial liabilities that are not held for trading, or designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

(v) Financial liabilities - Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in the Statement of profit and loss as other gains/(losses).

(vi) Income/loss recognition

■ Interest income

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the Brookfield India REIT estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

k) Leases

At inception of a contract, the Brookfield India REIT assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an

Condensed Standalone Financial Statements

Notes to the Standalone Financial Statements

identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Brookfield India REIT assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Brookfield India REIT has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Brookfield India REIT has the right to direct the use of the asset. The Brookfield India REIT has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Brookfield India REIT has the right to direct the use of the asset if either:
 - the Brookfield India REIT has the right to operate the asset; or
 - the Brookfield India REIT designed the asset in a way that predetermines how and for what purpose it will be used..

As a lessee

The Brookfield India REIT recognizes a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-

of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Brookfield India REIT incremental borrowing rate. Generally, the Brookfield India REIT uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Brookfield India REIT is reasonably certain to exercise, lease payments in an optional renewal period if the Brookfield India REIT is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Brookfield India REIT is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Brookfield India REIT's estimate of the amount expected to be payable under a residual value guarantee, or if the Brookfield India REIT changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Notes to the Standalone Financial Statements

The Brookfield India REIT presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities (current and non-current) in the statement of financial position.

The Brookfield India REIT has elected not to recognize right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and leases of low-value assets. The Brookfield India REIT recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

The Brookfield India REIT enters into lease agreements as a lessor with respect to its investment properties.

Leases for which the Brookfield India REIT is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Brookfield India REIT is an intermediate lessor, it accounts for the head lease and the sub-lease as two separate contracts. The sub-lease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Brookfield India REIT's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Brookfield India REIT's net investment outstanding in respect of the leases.

When a contract includes both lease and non-lease components, the Brookfield India REIT applies Ind AS 115 to allocate the consideration under the contract to each component.

l) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms.

Revenue is recognised when recovery of the consideration is probable and the amount of revenue can be measured reliably.

Recognition of dividend income, interest income

Dividend income is recognised in profit or loss on the date on which the Brookfield India REIT's right to receive payment is established.

Interest income is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset. In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

m) Taxation

Income tax expense comprises current and deferred tax. It is recognized in Statement of profit and loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case it is recognized in equity or in other comprehensive income.e.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Condensed Standalone Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Standalone Financial Statements

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- Temporary differences arising on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- Temporary differences related to investments in subsidiaries, associates, and joint arrangements to the extent that the Brookfield India REIT is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on initial recognition of goodwill.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, Brookfield India REIT recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets—unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised. Further, no deferred tax asset/liabilities are recognized in respect of temporary differences that reverse within tax holiday period.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Brookfield India REIT expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

n) Provisions and contingencies

A provision is recognized when the Brookfield India REIT has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Brookfield India REIT or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Brookfield India REIT does not recognize a contingent liability but discloses its existence in the financial statements.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

Notes to the Standalone Financial Statements

o) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

Identification of segments:

In accordance with Ind AS 108- Operating Segment, the operating segments used to present segment information are identified on the basis of information reviewed by the Chief Operating Decision Maker ('CODM') to allocate resources to the segments and assess their performance. An operating segment is a component of the Brookfield India REIT that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the Brookfield India REIT's other components.

Based on an analysis of Brookfield India REIT's structure and powers conferred to the Manager to Brookfield India REIT, the Governing Board of the Manager (Brookprop Management Services Private Limited) has been identified as the Chief Operating Decision Maker ('CODM'), since they are empowered for all major decisions w.r.t. the management, administration, investment, disinvestment, etc.

As the Brookfield India REIT is primarily engaged in the business of developing and maintaining commercial real estate properties in India, CODM reviews the entire business as a single operating segment and accordingly disclosure requirements of Ind AS 108 "Operating Segments" in respect of reportable segments are not applicable.

p) Subsequent events

The Condensed Standalone Financial Statements are prepared after reflecting adjusting and non-adjusting events that occur after the reporting period but before the Condensed Standalone Financial Statements are authorized for issue.

q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

r) Earnings per unit

Basic earnings per unit is calculated by dividing the net profit / (loss) for the period attributable to unit holders of the Brookfield India REIT by the weighted average number of units outstanding during the period.

For the purpose of calculating diluted earnings per unit, the profit or loss for the period attributable to unit holders of the Brookfield India REIT and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

Dilutive potential units are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per unit, only potential units that are dilutive and which either reduces earnings per unit or increase loss per units are included.

s) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Condensed Standalone Balance Sheet when, and only when, the Brookfield India REIT currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously..

t) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Brookfield India REIT are segregated. For the purpose of the Statement of Cash Flow, cash and cash equivalents consist of cash and short-term deposits..

u) Cash distribution to Unitholders

The Brookfield India REIT recognizes a liability to make cash distributions to Unitholders when the distribution is authorized, and a legal obligation has been created. As per the REIT Regulations, a distribution is authorized when it is approved by the Board of Directors of the Manager. A corresponding amount is recognized directly in equity.

(a) Terms/rights attached to Units and accounting thereof

- (i) The Trust has only one class of Units. Each Unit represents an undivided beneficial interest in the Trust. Each holder of Unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the REIT Regulations. The Board of Directors of the Investment Manager approves distributions. The distribution will be in proportion to the number of Units held by the Unitholders. The Trust declares and pays distributions in Indian Rupees.

Under the provisions of the REIT Regulations, Brookfield India REIT is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of Brookfield India REIT for each financial year. Accordingly, a portion of the Unit Capital contains a contractual obligation of the Brookfield India REIT to pay to its Unitholders cash distributions. Hence, the Unit Capital is a compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/146/2016 dated 29 December 2016 and No. CIR/IMD/DF/141/2016 dated 26 December 2016) issued under the REIT Regulations, the Unit Capital has been presented as "Equity" in order to comply with the requirements of Section H of Annexure A to the SEBI Circular dated 26 December 2016 dealing with the minimum presentation and disclosure requirements for key financial statements. Consistent with Unit Capital being classified as equity, the distributions to Unitholders is also presented in Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of Investment Manager.

- (ii) Initial Public Offering of 138,181,800 Units for cash at price of ₹275 per Unit aggregating to ₹38,000.00 million. Refer note 28 for utilization of IPO proceeds. Further preferential allotment of 16,821,856 Units for cash at price of ₹294.25 per unit aggregating to ₹4,949.83 was made during the year ended 31 March 2022. The preferential allotment was mainly used to fund the SDPL Noida acquisition.

[#] fair value of financial assets and financial liabilities which are recognized at amortized cost has been disclosed to be same as carrying value as the carrying value approximately equals to their fair value.

^{*} Fair value of loan which are recognized at amortized cost, has been calculated at the present value of the future cash flows discounted at the current borrowing rate.

[^] Fair value of 15% Compulsorily Convertible Debentures (15% CCDs) is determined on the basis of Net assets value (NAV) method. These 15% CCDs are classified as level 3 in the fair value hierarchy due to the inclusion of unobservable inputs. The key input to the NAV is fair value of the investment properties.

ii) Measurement of fair values

The different levels of fair value have been defined below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices for instance listed equity instruments, traded bonds and mutual funds that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There have been no valuation under Level 1 and Level 2. There has been no transfers into or out of Level 3 of the fair value hierarchy for the quarter/ half year ended 30 September 2022 and year ended 31 March 2022.

The Brookfield India REIT's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

iii) Details of significant unobservable inputs

Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value
Financial assets measured at fair value (15% CCDs)	
Fair value of investment property	The estimated fair value would increase (decrease) if fair value of investment property increases (decreases)

iv) Sensitivity analysis of Level 3 fair values

For the fair value of 15% CCDs, reasonably possible changes at the reporting date due to one of the significant unobservable inputs, holding other inputs constant, would have following effects:

30 September 2022	Profit/ (Loss)	
	Increase	Decrease
Fair value of investment property (1% movement)	111.52	(111.52)

31 March 2022	Profit/ (Loss)	
	Increase	Decrease
Fair value of investment property (1% movement)	111.52	(111.52)

(v) Reconciliation of Level 3 fair values

23. SEGMENT REPORTING

The Trust does not have any Operating segments as at 30 September 2022 and 31 March 2022, hence disclosure under Ind AS 108, Operating segments has not been provided in the Condensed Standalone Financial Statements.

24. EARNINGS PER UNIT (EPU)

Basic EPU amounts are calculated by dividing the profit for the period/year attributable to Unitholders by the weighted average number of units outstanding during the period/year. Diluted EPU amounts are calculated by dividing the profit attributable to Unitholders by the weighted average number of units outstanding during the period plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital. The Units of the Trust were allotted on 08 February 2021, 11 February 2021 and 24 January 2022.

25. UNCERTAINTY RELATING TO THE GLOBAL HEALTH PANDEMIC ON COVID-19:

The COVID-19 pandemic has continued to cause disruption to business activities as well as disrupted travel and adversely impacted local, regional, national and international economic conditions. Brookfield India REIT has considered possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts and fair value of Investments in Subsidiaries. The fair value of investments in subsidiaries is primarily determined basis the fair value of the underlying investment properties as at 30 September 2022. As a result, future revenues and cash flows produced by investment properties could be potentially impacted due to this prevailing uncertainty. In response, Brookfield India REIT has adjusted cash flow assumptions for its estimate of near-term disruption to cash flows to reflect collections, vacancy and assumptions with respect to new leasing activity. In addition, Brookfield India REIT has continued to assess the appropriateness of the discount and terminal capitalization rates giving consideration to changes to property level cash flows and any risk premium inherent in such cash flow changes as well as the current cost of capital and credit spreads. Further, in developing assumptions relating to possible future uncertainties in the Indian economic conditions because of this pandemic; Brookfield India REIT, as at the date of approval of these Condensed Standalone Financial Statements, has used internal and external sources of information including reports on fair valuation of investment properties from property consultants, economic forecast and other information from market sources on the expected future performance of Brookfield India REIT. Based on this analysis, Brookfield India REIT has concluded that there is no impairment to the carrying amount of investments in subsidiaries and the fair value of investments in subsidiaries disclosed in the Condensed Standalone Financial Statements represents the best estimate based on internal and external sources of information on the reporting date.

The impact of COVID-19 on Brookfield India REIT Condensed Standalone Financial Statements may differ from that estimated as at the date of approval of these Condensed Standalone Financial Statements.

26. INVESTMENT MANAGEMENT FEE

REIT Management Fees

Pursuant to the Investment Management Agreement dated 17 July 2020, Investment Manager is entitled to fees @ 1% of NDCF, exclusive of applicable taxes (also refer note 29). The fees has been determined for undertaking management of the REIT and its investments. The said Management fees for the quarter and half year ended 30 September 2022 amounts to ₹20.26 million and ₹40.58 million respectively. There are no changes during the period in the methodology for computation of fees paid to the Manager.

29. DISTRIBUTION POLICY

In terms of the Distribution policy and REIT Regulations, not less than 90% of the NDCFs of our Asset SPVs are required to be distributed to Brookfield REIT, in proportion of its shareholding in our Asset SPVs, subject to applicable provisions of the Companies Act. The cash flows receivable by Brookfield REIT may be in the form of dividends, interest income, principal loan repayment, proceeds of any capital reduction or buyback from our Asset SPVs/ CIOP, sale proceeds out of disposal of investments of any or assets directly/ indirectly held by Brookfield REIT or as specifically permitted under the Trust Deed or in such other form as may be permissible under the applicable laws.

At least 90% of the NDCFs of Brookfield REIT ("REIT Distributions") shall be declared and made once every quarter of a Financial Year by our Manager. The first distribution shall be made upon completion of the first full quarter after the listing of our Units on the Stock Exchanges. Further, in accordance with the REIT Regulations, REIT Distributions shall be made no later than 15 days from the date of such declarations. The REIT Distributions, when made, shall be made in Indian Rupees.

The NDCFs shall be calculated in accordance with the REIT Regulations and any circular, notification or guidelines issued thereunder including the SEBI Guidelines.

30. CAPITALIZATION STATEMENT

The Trust's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Trust's capital structure mainly constitutes equity in the form of unit capital. The projects of SPVs are initially funded through construction financing arrangements. On completion, these loans are restructured into lease-rental discounting arrangements. The Trust's capital structure is influenced by the changes in regulatory framework, government policies, available options of financing and the impact of the same on the liquidity position.

The Trust monitors Capital by a careful scrutiny of the cash and bank balances, and a regular assessment of any debt requirements. In the absence of any interest bearing debt, the maintenance of Net debt to GAV ratio may not be of any relevance to the Trust as at 30 September 2022.

Independent Auditor’s Report

on Review of Condensed Consolidated Interim Financial Statements

To The Board of Directors of
Brookprop Management Services Private Limited
(the “Investment Manager”)

(Acting in capacity as the Investment Manager of Brookfield India Real Estate Trust)

INTRODUCTION

1. We have reviewed the accompanying unaudited Condensed Consolidated Interim Financial Statements of **Brookfield India Real Estate Trust** (“the REIT”), and its subsidiaries (the REIT and its subsidiaries together referred to as the “Group”), (“the Condensed Consolidated Interim Financial Statements”) which comprise of the following:

- the unaudited Condensed Consolidated Balance Sheet as at September 30, 2022;
- the unaudited Condensed Consolidated Statement of Profit and Loss (including other comprehensive income) for the quarter and half year ended September 30, 2022;
- the unaudited Condensed Consolidated Statement of Cash flow for the quarter and half year ended September 30, 2022;
- the unaudited Condensed Consolidated Statement of Changes in Unitholders’ Equity for the half year ended September 30, 2022;
- the unaudited Statement of Net Assets at Fair Value as at September 30, 2022;
- the unaudited Statement of Total Returns at Fair Value for the half year ended September 30, 2022;
- the unaudited Condensed Statement of Net Distributable Cash Flow of the Brookfield India Real Estate Trust and each of the subsidiaries for the quarter and half year ended September 30, 2022; and
- summary of the significant accounting policies and select explanatory notes

These Condensed Consolidated Interim Financial Statements are being submitted by the REIT pursuant to the requirements of Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder read with SEBI Circular No. CIR/IMD/DF/146/2016 dated December 29, 2016 (the “REIT regulations”).

2. The Condensed Consolidated Interim Financial Statements, which is the responsibility of the Investment Manager and approved by the Board of Directors of the Investment Manager, have been prepared in accordance with the requirements of the REIT Regulations; Indian Accounting Standard 34 “Interim Financial Reporting” (“Ind AS 34”), prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the REIT Regulations. Our responsibility is to express a conclusion on the Condensed Consolidated Interim Financial Statements based on our review.

Scope of Review

3. We conducted our review of the Condensed Consolidated Interim Financial Statements in accordance with the Standard on Review Engagements (SRE) 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of Investment Manager’s personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing issued by ICAI and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. The Condensed Consolidated Interim Financial Statements includes the financial information of the following entities:

Sr. No.	Name of the entities
A Parent entity	
1	Brookfield India Real Estate Trust
B Subsidiaries	
1	Shantiniketan Properties Private Limited
2	Candor Kolkata One Hi-Tech Structures Private Limited
3	Festus Properties Private Limited
4	Seaview Developers Private Limited
5	Candor India Office Parks Private Limited

Conclusion

5. Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Consolidated Interim Financial Statements, have not been prepared in accordance with the REIT Regulations, Ind AS 34, prescribed under Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the REIT Regulations.

Emphasis of matter

6. We draw attention to Note 15(a)(i) which describes the presentation of “Unit Capital” as “Equity” to comply with REIT Regulations. Our conclusion is not modified in respect of this matter.

Measurement of fair values

The fair value of investment properties and investment property under development has been determined by independent external registered property valuers, having appropriately recognized professional qualifications and recent experience in the location and category of the properties being valued.

Valuation technique

The fair value measurement of the investment properties and investment property under development has been categorized as a Level 3 fair value based on the inputs to the valuation technique used.

The valuers have followed a discounted cash flow method. The discounted cash flow method considers the present value of net cash flows to be generated from the respective properties, taking into account the expected rental growth rate, vacancy period, occupancy rate, average sq. ft. rent and lease incentive costs. The expected net cash flows are discounted using the risk adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality, lease terms and investors expected return.

For fair valuation of financial assets and financial liabilities refer note 37.

Notes

- Candor Kolkata has plans to de-notify a portion of its SEZ into non SEZ. The denotification will be taken up prior to the construction commencement and is procedural in nature. Hence, the fair valuation of such SEZ portion has been computed by the valuers assuming non IT use.

Notes to the Consolidated Financial Statements

2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of Condensed Consolidated financial statements

The Interim Condensed Consolidated Financial Statements of Brookfield India REIT comprises:

- the Condensed Consolidated Balance Sheet,
- the Condensed Consolidated Statement of Profit and Loss (including other comprehensive income),
- the Condensed Consolidated Statement of Cash Flows,
- the Condensed Consolidated Statement of Changes in Unitholders' Equity,
- a summary of significant accounting policies and other explanatory information.

Additionally, it includes the Statement of Net Assets at Fair Value, the Statement of Total Returns at Fair Value, the Statement of Net Distributable Cash Flow of Brookfield India REIT and each of the SPVs and other additional financial disclosures as required under the SEBI (Real Estate Investment Trusts) Regulations, 2014. The Condensed Consolidated Financial Statements were authorized for issue in accordance with resolutions passed by the Board of Directors of the Manager on behalf of the Brookfield India REIT on 07 November 2022. The Condensed Consolidated Financial Statements have been prepared in accordance with the requirements of SEBI (Real Estate Investment Trusts) Regulations, 2014, as amended from time to time read with the SEBI circular number CIR/IMD/DF/146/2016 dated 29 December 2016 ("REIT Regulations"); Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting", as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 ('Ind AS') to the extent not inconsistent with the REIT Regulations (refer note 15(a)(i) on presentation of "Unit Capital" as "Equity" instead of compound instruments under Ind AS 32 – Financial Instruments: Presentation), read with relevant rules issued thereunder and other accounting principles generally accepted in India.

Accordingly, these condensed consolidated financial statements do not include all the information required for a complete set of financial statements. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's consolidated financial statements under IND AS for the year ended 31 March 2022. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Condensed Consolidated Financial Statements are presented in Indian Rupees in Millions, except when otherwise indicated

2.2 Significant accounting policies

a) Basis of Consolidation

The Brookfield India REIT consolidates entities which it owns or controls. The Condensed Consolidated Financial Statements comprise the financial statements of the Brookfield India REIT and its subsidiary SPVs as disclosed in Note 1. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The procedure adopted for preparing Condensed Consolidated Financial Statements of Brookfield India REIT is stated below:

- The Condensed Consolidated Financial Statements have been prepared using the principles of consolidation as per Ind AS 110 - Consolidated Financial Statements.
- The financial statements of the Group are consolidated by combining/adding like items of assets, liabilities, equity, income, expenses and cash flows.
- Intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of Brookfield India REIT are eliminated in full.

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

iv) The figures in the notes to accounts and disclosures have been Consolidated line by line and intragroup transactions and balances including unrealized profit are eliminated in full on consolidation.

b) Functional and presentation currency

The Condensed Consolidated Financial Statements are presented in Indian rupees, which is Brookfield India REIT's functional currency and the currency of the primary economic environment in which Brookfield India REIT operates. All financial information presented in Indian rupees has been rounded off to nearest million except unit and per unit data.

c) Basis of measurement

The Condensed Consolidated Financial Statements have been prepared on historical cost basis except for certain financial instruments measured at fair value at the end of each reporting period as explained in the accounting policies below.

The Condensed Consolidated Financial Statements have been prepared on a going concern basis.

d) Use of judgments and estimates

The preparation of Condensed Consolidated Financial Statements in conformity with generally accepted accounting principles in India (Ind AS), to the extent not inconsistent with the REIT regulations, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the Condensed Consolidated Financial Statements is included in the following notes:

(i) presentation of "Unit Capital" as "Equity" in accordance with the REIT Regulations instead of compound instrument (Note 15)

(ii) determination of useful life of investment property (Note 2.2 (g))

(iii) determination of recoverable amount / fair value of investment property (Note 2.2 (g), and Note 43), Statement of Net Assets at Fair Value, Statement of Total Return at Fair Value

(iv) determination of lease term (Note 2.2 (n))

(v) recognition / recoverability of deferred tax assets (Note 2.2 (p)) and Note 6

e) Current versus non-current classification

Brookfield India REIT presents assets and liabilities in the Condensed Consolidated Balance Sheet based on current/ non-current classification:

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realized in, or is intended for sale or consumption in, the normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realized within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Brookfield India REIT classifies all other assets as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in normal operating cycle of Brookfield India REIT;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the Brookfield India REIT does not have an unconditional right to defer settlement of the

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Brookfield India REIT classifies all other liabilities as non-current.

Current assets/liabilities include current portion of non-current financial assets/ liabilities respectively. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

f) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, Brookfield India REIT takes into account the characteristics of the asset or liability and how market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Inputs to fair value measurement techniques are disaggregated into three hierarchical levels, which are directly based on the degree to which inputs to fair value measurement techniques are observable by market participants:

- Level 1: Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2: Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and for the duration of the asset's or liability's anticipated life.
- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs in determining the estimate.

Fair value measurement framework is adopted by Brookfield India REIT to determine the fair value of various assets and liabilities measured or disclosed at fair value.

g) Investment properties

Recognition and measurement

Investment property consists of commercial properties which are primarily held to earn rental income and commercial developments that are being constructed or developed for future use as commercial properties. The cost of commercial development properties includes direct development costs, import duties and other non-refundable purchase taxes, borrowing costs directly attributable to the development and any directly attributable cost of bringing the asset to its working condition for its intended use. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and impairment losses, if any.

Equipment and furnishings physically attached and integral to a building are considered to be part of the investment property.

Subsequent expenditure and disposal

Subsequent expenditure is capitalized to the investment property's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Brookfield India REIT and the cost of the item can be measured reliably. The cost of the assets not ready for its intended use before such date, are disclosed as investment property under development. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Any gain or loss from disposal of an investment property is recognized in Statement of profit and loss.

Depreciation

Investment property is depreciated using the straight-line method over their estimated useful lives. The useful lives of the assets have been determined by management after considering nature of assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support.

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

The useful lives of the investment property are tabulated as below:

Particulars	Useful Life (Years)
Buildings	60
Plant and Machinery	4 - 15
Furniture and Fixtures	5 - 12
Electrical fittings	4 - 15
Diesel generator sets	15 - 25
Air conditioners	15
Office Equipment	5 - 12
Kitchen Equipment	5
Computers	3 - 6
Right of Use (Leasehold Land)	As per lease term

The fair value of investment property is disclosed in the statement of net assets at fair value. Fair values are determined by an independent registered valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

h) Property, plant and equipment and intangible assets

Recognition and measurement

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises the purchase price, including import duties and other non-refundable purchase taxes and any directly attributable cost of bringing the asset to its working condition for its intended use.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Likewise, on initial recognition expenditure to be incurred towards major inspections and overhauls are required to be identified as a separate component and depreciated over the expected period till the next overhaul expenditure.

Subsequent expenditure and disposal

Subsequent expenditure is capitalized to the property, plant and equipment's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Brookfield India REIT and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of a property, plant and equipment is replaced, the carrying amount of the replaced part is derecognized.

Any gain or loss from disposal of a property, plant and equipment is recognized in Statement of profit and loss.

Depreciation

Property, plant and equipment are depreciated using the straight-line method over their estimated useful lives. The useful lives of the assets have been determined by management after considering nature of assets, the estimated usage of the assets, the operating conditions of the assets, past history of replacement and maintenance support.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on additions (disposals) is provided on pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed off).

Leasehold improvements are depreciated over primary period of lease or the useful life of the asset, whichever is lower.

Estimated useful lives of items of property, plant and equipment are tabulated as follows:

Particulars	Useful Life (Years)
Buildings	60
Plant and Machinery	5 - 20
Furniture and Fixtures	3 - 14
Electrical fittings	10
Air conditioners	3 - 15
Office Equipment	4 - 15
Kitchen Equipment	5
Vehicle	8
Computers	3 - 14
Computer Software	5

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

Intangible assets comprise purchase of software. Intangible assets are carried at cost and amortized over a period of 5 years, which represents the period over which the Brookfield India REIT expects to derive economic benefits from the use of the assets.

The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each reporting period and the amortization period is revised to reflect the changed pattern, if any.

i) Impairment of non-financial assets

Brookfield India REIT assesses, at each reporting date, whether there is an indication that a non-financial asset other than deferred tax assets may be impaired. If any indication exists, or when annual impairment testing for an asset is required, Brookfield India REIT estimates the asset's recoverable amount. Goodwill is tested annually for impairment.

An impairment loss is recognized in the Condensed Consolidated Statement of Profit and Loss if the carrying amount of an asset or its cash-generating unit (CGU) exceeds its recoverable amount. Impairment loss recognized in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU on a pro rata basis. A CGU is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups.

Impairment losses are recognized in the Condensed Consolidated Statement of Profit and Loss, unless it reverses previous revaluation credited to equity, in which case it is charged to equity.

Goodwill (if any) arising from a business combination is allocated to CGUs or group of CGUs that are expected to benefit from the synergies of the combination.

An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. In estimating value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. For the

purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not subsequently reversed. In respect of other assets, such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized.

j) Foreign currency transactions

Items included in the financial statements of the Brookfield India REIT are measured using the currency of the primary economic environment in which the Brookfield India REIT operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Brookfield India REIT functional and presentation currency.

Foreign currency transactions in currencies other than the functional currency are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains or losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at reporting period end exchange rates are generally recognized in the Statement of profit and loss.

k) Errors, estimates and change in accounting policies

The Brookfield India REIT revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the Condensed Consolidated Financial Statements. Changes in accounting policies are applied retrospectively, wherever applicable.

A change in an accounting estimate that results in changes in the carrying amounts of recognised

Condensed Consolidated Financial Statements

Notes to the Consolidated Financial Statements

assets or liabilities or to profit or loss is applied prospectively in the period(s) of change. Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

1) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets - Recognition

All financial assets are recognized initially at fair value (except for trade receivables which are initially measured at transaction price) plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classification and subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

▪ Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss.

▪ Debt instruments at fair value through other comprehensive income (FVOCI)

A 'debt instrument' is classified as at the FVOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, interest income, impairment losses and reversals and foreign exchange gain or loss is recognized in statement of profit and loss. On derecognition of the asset, cumulative gains or losses previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVOCI debt instrument is reported as interest income using the EIR method.

▪ Debt instruments at fair value through profit or loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the Brookfield India REIT may elect to designate a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Brookfield India REIT has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in Statement of profit or loss.

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

▪ Equity instruments measured at fair value through other comprehensive income (FVOCI)

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Brookfield India REIT may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Brookfield India REIT makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Brookfield India REIT decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Brookfield India REIT may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in Statement of profit and loss.

(ii) Financial Assets - Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e., removed from the Brookfield India REIT balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Brookfield India REIT has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Brookfield India REIT has transferred substantially all the risks and rewards of the asset, or (b) the Brookfield India REIT has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(iii) Impairment of financial assets

Brookfield India REIT recognizes loss allowance using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component and lease receivables is measured at an amount equal to lifetime ECL. For all financial assets with contractual cash flows other than trade receivable and lease receivables, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date, is recognized as an impairment gain or loss in the Statement of profit and loss.

Trade Receivables are generally written off against the allowance only after all means of collection have been exhausted and the potential for recovery is considered remote.

(iv) Financial liabilities - Recognition and Subsequent measurement

Brookfield India REIT financial liabilities are initially measured at fair value less any attributable transaction costs. Subsequent to initial measurement, these are measured at amortized cost using the effective interest rate ('EIR') method or at fair value through profit or loss (FVTPL).

Brookfield India REIT financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

The measurement of financial liabilities depends on their classification, as described below:

▪ Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through Statement of profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through Statement of profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of

Notes to the Consolidated Financial Statements

repurchasing in the near term. This category also includes derivative financial instruments entered into by the Brookfield India REIT that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in Statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through Statement of profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains or losses are not subsequently transferred to statement of profit and loss. However, the Brookfield India REIT may transfer the cumulative gains or losses within equity. All other changes in fair value of such liability are recognized in Statement of profit and loss. The Brookfield India REIT has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortized cost

Financial liabilities that are not held for trading, or designated as at FVTPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

(v) Financial liabilities - Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial

liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in the Statement of profit and loss as other gains/(losses).

(vi) Income/loss recognition

Interest income

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. While calculating the effective interest rate, the Brookfield India REIT estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Borrowing costs

Borrowing cost includes interest expense as per effective interest rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs associated with direct expenditures on properties under development or redevelopment or property, plant and equipment are capitalized. The amount of borrowing costs capitalized is determined first by borrowings specific to a property where relevant, and then by a weighted average cost of borrowings to eligible expenditures after adjusting for borrowings associated with other specific developments. Where borrowings are associated with specific developments, the amount capitalized is the gross borrowing costs incurred less any incidental investment income. Borrowing costs are capitalized from the commencement of the development until

the date of practical completion. The Brookfield India REIT considers practical completion to have occurred when the physical construction of property is completed and the property is substantially ready for its intended use and is capable of operating in the manner intended by management. Capitalization of borrowing costs is suspended and charged to the Statement of profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

(vii) Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Embedded derivatives closely related to the host contracts are not separated. Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss.

m) Leases

At inception of a contract, the Brookfield India REIT assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Brookfield India REIT assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Brookfield India REIT has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

- the Brookfield India REIT has the right to direct the use of the asset. The Brookfield India REIT has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Brookfield India REIT has the right to direct the use of the asset if either:

- o the Brookfield India REIT has the right to operate the asset; or
- o the Brookfield India REIT designed the asset in a way that predetermines how and for what purpose it will be used.

As a lessee

The Brookfield India REIT recognizes a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Brookfield India REIT's incremental borrowing rate. Generally, the Brookfield India REIT uses its incremental borrowing rate as the discount rate.

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Brookfield India REIT is reasonably certain to exercise, lease payments in an optional renewal period if the Brookfield India REIT is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Brookfield India REIT is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Brookfield India REIT's estimate of the amount expected to be payable under a residual value guarantee, or if the Brookfield India REIT changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Brookfield India REIT presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities (current and non-current) in the statement of financial position.

The Brookfield India REIT has elected not to recognize right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and leases of low-value assets. The Brookfield India REIT recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

The Brookfield India REIT enters into lease agreements as a lessor with respect to its investment properties.

Leases for which the Brookfield India REIT is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Brookfield India REIT is an intermediate lessor, it accounts for the head lease and the sub-lease as two separate contracts. The sub-lease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Brookfield India REIT's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Brookfield India REIT's net investment outstanding in respect of the leases.

When a contract includes both lease and non-lease components, the Brookfield India REIT applies Ind AS 115 to allocate the consideration under the contract to each component.

n) Revenue recognition

Revenues are measured based on the transaction price, which is the consideration, net of tax collected from customers and remitted to government authorities such as Goods and Services tax, and applicable service level credits, discounts or price concessions. The computation of these estimates involves significant judgment based on various factors including contractual terms, historical experience, expense incurred etc.

Notes to the Consolidated Financial Statements

i. Income from Operating Lease Rentals

Assets given under operating lease are included in investment property. Revenue recognition under a lease commences when the tenant has a right to use the leased asset. Generally, this occurs on the lease commencement date. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. In determining the lease term, management considers all facts and circumstances including renewal, termination and market conditions.

Income from Operating Lease Rentals also includes percentage participating rents. Percentage participating rents are recognized when tenants' specified sales targets have been met.

ii. Income from maintenance services

Income from maintenance services consists of revenue earned from the provision of daily maintenance, security and administration services, and is charged to tenants based on the occupied lettable area of the properties. Income from maintenance services is recognized when the entity has satisfied its performance obligation by delivering services as per terms of contract entered into with tenants.

o) Employee benefits

Employee benefits include provident fund, gratuity and compensated absences.

Provident fund

The Brookfield India REIT's contribution to provident fund is considered as defined contribution plans and is charged as an expense in statement of profit and loss based on the amount of contribution required to be made as and when services are rendered by the employees.

Gratuity

Brookfield India REIT has an obligation towards gratuity, a defined post-employment benefits plan covering eligible employees. The present value of the defined benefit liability and the related current service cost and past service cost are measured using projected unit credit method; with actuarial valuations being carried out at each balance sheet date. Remeasurements comprising actuarial gains and losses are recognized immediately in

the balance sheet with a charge or credit to other comprehensive income in the period in which they occur. Remeasurements recognized in other comprehensive income are not reclassified. Past service cost is recognized in profit or loss when the plan amendment or curtailment occurs, or when the Brookfield India REIT recognizes related restructuring costs or termination benefits, whichever is earlier.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the period when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Other Long-term employee benefits

The employees of the Brookfield India REIT are entitled to other long term benefit by way of accumulating compensated absences. Cost of long-term benefit by way of accumulating compensated absences arising during the tenure of the service is calculated taking into account the pattern of availment of leave. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation based on actuarial valuations as at the balance sheet date by an independent actuary using the Projected Unit Credit method. Actuarial gains and losses relating to long-term employee benefits are recognised in the statement of Profit and Loss in the period in which they arise.

p) Taxation

Income tax expense comprises current and deferred tax. It is recognized in Statement of profit and loss except to the extent that it relates to items

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

recognized directly in equity or other comprehensive income, in which case it is recognized in equity or in other comprehensive income.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum Alternative Tax ('MAT') under the provisions of the Income Tax, 1961 is recognised as current tax in the Condensed Consolidated Statement of profit and loss. The credit available under the Act in respect of MAT paid is recognised as a deferred tax asset only when and to the extent there is convincing evidence that the Brookfield India REIT will pay normal income tax during the period for which MAT credit can be carried forward for set-off against normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- Temporary differences arising on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither

accounting nor taxable profit or loss at the time of the transaction;

- Temporary differences related to investments in subsidiaries, associates, and joint arrangements to the extent that the Brookfield India REIT is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on initial recognition of goodwill.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, Brookfield India REIT recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets—unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised. Further, no deferred tax asset/liabilities are recognized in respect of temporary differences that reverse within tax holiday period.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Brookfield India REIT expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax

Notes to the Consolidated Financial Statements

authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

q) Provisions and contingencies

A provision is recognized when the Brookfield India REIT has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Brookfield India REIT or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Brookfield India REIT does not recognize a contingent liability but discloses its existence in the financial statements.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

r) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

Identification of segments:

In accordance with Ind AS 108- Operating Segment, the operating segments used to present segment information are identified on the basis of information reviewed by the Chief Operating Decision Maker ('CODM') to allocate resources to the segments and assess their performance. An operating segment is a component of the Brookfield India REIT that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the Brookfield India REIT's other components.

Based on an analysis of Brookfield India REIT's structure and powers conferred to the Manager to Brookfield India REIT, the Governing Board of the Manager (Brookprop Management Services Private Limited) has been identified as the Chief Operating Decision Maker ('CODM'), since they are empowered for all major decisions w.r.t. the management, administration, investment, disinvestment, etc.

As the Brookfield India REIT is primarily engaged in the business of developing and maintaining commercial real estate properties in India, CODM reviews the entire business as a single operating segment and accordingly disclosure requirements of Ind AS 108 "Operating Segments" in respect of reportable segments are not applicable.

s) Subsequent events

The Condensed Consolidated Financial Statements are prepared after reflecting adjusting and non-adjusting events that occur after the reporting period but before the Condensed Consolidated Financial Statements are authorized for issue.

t) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

u) Earnings per unit

Basic earnings per unit are calculated by dividing the net profit / (loss) for the period attributable to unit holders of the Brookfield India REIT by the weighted average number of units outstanding during the period.

For the purpose of calculating diluted earnings per unit, the profit or loss for the period attributable to unit holders of the Brookfield India REIT and the weighted average number of units outstanding during the period are adjusted for the effects of all dilutive potential units.

Dilutive potential units are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per unit, only potential equity units that are dilutive and which either reduces earnings per unit or increase loss per units are included.

Notes to the Consolidated Financial Statements

v) Business Combination/Asset Acquisition

The amendment to Ind AS 103 Business Combinations clarifies that while businesses usually have outputs, outputs are not required for an integrated set of activities and assets to qualify as a business. To be considered a business an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs.

The amendments remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs. The amendments also introduce additional guidance that helps to determine whether a substantive process has been acquired.

The amendments introduce an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business. Under the optional concentration test, the acquired set of activities and assets is not a business if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar assets.

Brookfield India REIT has opted to apply optional concentration test in respect of acquisition of SPVs. Refer Note 44 of the financial statements for details.

w) Condensed Consolidated Statement of Cash flows

Condensed Consolidated Cash flows are reported using the indirect method, whereby Profit/ (loss) before tax is adjusted for the effects of transactions

of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated. For the purpose of the Condensed Consolidated Statement of Cash Flow, cash and cash equivalents consist of cash and short-term deposits.

x) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Condensed Consolidated Balance Sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

y) Cash distribution to Unitholders

The Brookfield India REIT recognizes a liability to make cash distributions to Unitholders when the distribution is authorized and a legal obligation has been created. As per the REIT Regulations, a distribution is authorized when it is approved by the Board of Directors of the Manager. A corresponding amount is recognized directly in equity.

z) Income support

The income support that is an integral part of an acquisition transaction is treated as deduction in the acquisition cost of such investment property. Where the right to receive the income support is spread over a period of time, the right to receive the income support is recognized as a financial asset at fair value and subsequently measured at fair value through profit or loss.

(a) Terms/rights attached to Units and accounting thereof

- (i) The Trust has only one class of Units. Each Unit represents an undivided beneficial interest in the Trust. Each holder of Unit is entitled to one vote per unit. The Unitholders have the right to receive at least 90% of the Net Distributable Cash Flows of the Trust at least once in every six months in each financial year in accordance with the REIT Regulations. The Board of Directors of the Investment Manager approves distributions. The distribution will be in proportion to the number of Units held by the Unitholders. The Trust declares and pays distributions in Indian Rupees.

Under the provisions of the REIT Regulations, Brookfield India REIT is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of Brookfield India REIT for each financial year. Accordingly, a portion of the Unit Capital contains a contractual obligation of the Brookfield India REIT to pay to its Unitholders cash distributions. Hence, the Unit Capital is a compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/146/2016 dated 29 December 2016 and No. CIR/IMD/DF/141/2016 dated 26 December 2016) issued under the REIT Regulations, the Unit Capital has been presented as "Equity" in order to comply with the requirements of Section H of Annexure A to the SEBI Circular dated 26 December 2016 dealing with the minimum presentation and disclosure requirements for key financial statements. Consistent with Unit Capital being classified as equity, the distributions to Unitholders is also presented in Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of Investment Manager.

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

In supplement to earlier JDA, a new co-development agreement was entered into between GIL (the developer) and Candor Kolkata One Hi-Tech Structures Private Limited (the co-developer) on 17 September 2007 as amended from time to time under which the developer and co-developer will jointly carry out the process of installation of fit-outs & fixtures and the cost of such installation shall be shared by the developer and co-developer in the same ratio as to sharing of gross proceeds i.e. 28% and 72% respectively. This agreement is accounted as joint operations as per Ind AS 111.

37. FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT

i) Financial instruments by category and fair value

The below table summarizes the judgements and estimates made in determining the fair values of the financial instruments that are measured at amortized cost and for which fair values are disclosed in the financial statements. There are no financial instruments, which are subsequently measured at fair value.

	Carrying value		Fair value	
	As at 30 September 2022	As at 31 March 2022	As at 30 September 2022	As at 31 March 2022

Other financial liabilities #	6,036.96	5,390.56	6,036.96	5,390.56
Total financial liabilities	59,893.41	57,683.41	59,893.41	57,683.41

fair value of financial assets and financial liabilities which are recognized at amortized cost has been disclosed to be same as carrying value as the carrying value approximately equals to their fair value.

^ Fair value of Receivable for income support is determined on the basis of present value of expected future cash flows. These are classified as level 3 in the fair value hierarchy due to the inclusion of unobservable inputs. The key input for determining the same is discount rate.

ii) Measurement of fair values

The different levels of fair value have been defined below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices for instance listed equity instruments, traded bonds and mutual funds that have quoted price.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There have been no valuation under Level 1 and Level 2. There has been no transfers into or out of Level 3 of the fair value hierarchy for the quarter/ half year ended 30 September 2022 and year ended 31 March 2022.

Condensed Consolidated Financial Statements

(All amounts are in Rupees millions unless otherwise stated)

Notes to the Consolidated Financial Statements

The Brookfield India REIT policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

iii) Details of significant unobservable inputs

Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value
Financial assets measured at fair value (Receivable for income support)	
Discount rate (30 September 2022- 11.75% ; 31 March 2022- 11.50% and 12.75%)	The estimated fair value would decrease (increase) if discount rate is higher (lower)

iv) Sensitivity analysis of Level 3 fair values

For the fair value of receivable for income support, reasonably possible changes at the reporting date due to one of the significant unobservable inputs, holding other inputs constant, would have following effects:

30 September 2022	Profit/ (Loss)	
	Increase	Decrease
Discount rate (1% movement)	3.85	(3.85)

31 March 2022	Profit/ (Loss)	
	Increase	Decrease
Discount rate (1% movement)	8.06	(8.06)

v) Reconciliation of Level 3 fair values

Fair Value relating to receivable for income support	Amount
Balance as at 24 January 2022	1,358.69
Income support received	(228.14)
Net change in fair value - unrealized (refer note 28)	31.58

Balance as at 1 April 2022	1,162.13
Income support received	(356.78)
Net change in fair value - unrealized (refer note 28)	60.09
Balance as at 30 September 2022	865.44

38. SEGMENT REPORTING

- a) Ind AS 108 establishes requirements to identify the operating segment and related disclosures, basis how the Chief Operating Decision Maker ('CODM') evaluates the performance and allocates resources to different segments. Based on an analysis of Brookfield India REIT structure and powers conferred to the Manager to REIT, the Governing Board of the Manager (Brookprop Management Services Private Limited) has been identified as the Chief Operating Decision Maker ('CODM'), since they are empowered for all major decisions w.r.t. the management, administration, investment, disinvestment, etc.

As the Group is primarily engaged in the business of developing and maintaining commercial real estate properties in India, CODM reviews the entire business as a single operating segment and accordingly disclosure requirements of Ind AS 108 "Operating Segments" in respect of reportable segments are not applicable.

- b) Customer A represented 13.12%, 13.68%, 14.27%, 18.43%, 18.19% and 17.97% of revenues for the quarter, half year ending 30 September 2022, quarter ending 30 June 2022, quarter, half year ending 30 September 2021 and year ending 31 March 2022 respectively, Customer B represented 14.54%, 14.35%, 14.15%, 15.39%, 15.76% and 15.70% of revenues for the quarter, half year ending 30 September 2022, quarter ending 30 June 2022, quarter, half year ending 30 September 2021 and year ending 31 March 2022 respectively and Customer C represented 10.65%, 10.67%, 10.69%, 11.50%, 11.41% and 11.50% of revenues for the quarter, half year ending 30 September 2022, quarter ending 30 June 2022, quarter, half year ending 30 September 2021 and year ending 31 March 2022 respectively.

41. CAPITALIZATION STATEMENT

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group's capital structure mainly constitutes equity in the form of unit capital and debt. The projects of SPVs are initially funded through construction financing arrangements. On completion, these loans are restructured into lease-rental discounting arrangements or debentures. The Group's capital structure is influenced by the changes in regulatory framework, government policies, available options of financing and the impact of the same on the liquidity position.

The Group monitors Capital using ratio of 'Net debt' to 'Gross asset value (GAV)' of all SPVs. For this purpose, Net debt is defined as Long-term borrowings + Short-term borrowings + current maturities of long-term borrowings. The Group's adjusted Net debt to GAV ratio as at 30 September 2022 and 31 March 2022 are as follows:

Particulars	As at 30 September 2022	As at 31 March 2022

43. UNCERTAINTY RELATING TO THE GLOBAL HEALTH PANDEMIC ON COVID-19:

The COVID-19 pandemic has continued to cause disruption to business activities as well as disrupted travel and adversely impacted local, regional, national and international economic conditions. Brookfield India REIT has considered possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts and fair value of investment property (including under development). As a result, future revenues and cash flows produced by investment properties could be potentially impacted due to this prevailing uncertainty. In response, Brookfield India REIT has adjusted cash flow assumptions for its estimate of near-term disruption to cash flows to reflect collections, vacancy and assumptions with respect to new leasing activity. In addition, Brookfield India REIT has continued to assess the appropriateness of the discount and terminal capitalization rates giving consideration to changes to property level cash flows and any risk premium inherent in such cash flow changes as well as the current cost of capital and credit spreads. Further, in developing assumptions relating to possible future uncertainties in the Indian economic conditions because of this pandemic; Brookfield India REIT, as at the date of approval of these Condensed Consolidated Financial Statements, has used internal and external sources of information including reports on fair valuation of investment properties from property consultants, economic forecast and other information from market sources on the expected future performance of Brookfield India REIT. Based on this analysis, Brookfield India REIT has concluded that there is no impairment to the carrying amount of investment property and the fair value of investment property disclosed in the Condensed Consolidated Financial Statements represents the best estimate based on internal and external sources of information on the reporting date.

The impact of COVID-19 on Brookfield India REIT Condensed Consolidated Financial Statements may differ from that estimated as at the date of approval of these Condensed Consolidated Financial Statements.

44. ASSETS ACQUISITION

- (i) On 8 February 2021 (the acquisition date), Brookfield India REIT acquired 100% of the equity interest and compulsorily convertible debentures of four SPVs as described in more detail in Note 1 - Organization structure; in exchange for units of Brookfield India REIT amounting to ₹45,270.45 Million (the "Purchase consideration").

The management applied the optional concentration test, under Ind AS 103, and concluded that the acquired set of activities and assets is not a business because substantially all of the fair value of the gross assets acquired is concentrated in investment properties, with similar risk characteristics. Accordingly, this transaction has been accounted for as an asset acquisition.

The management identified and recognized the individual identifiable assets acquired and liabilities assumed; and allocated the purchase consideration to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of acquisition.

The allocated value of the identifiable assets and liabilities of the four SPVs as at the date of acquisition were:

Assets	Amount (in million)
Property, plant and equipment	98.22
Investment property	100,378.03
Investment property under development	723.34
Other assets	6,848.43
Total Assets (A)	108,048.02
Liabilities	
Borrowings (including current maturities of long term borrowings)	56,776.42
Other liabilities	6,001.16
Total Liabilities (B)	62,777.58
Net Assets (A - B)	45,270.44

- (ii) On 24 January 2022 (the acquisition date), Brookfield India REIT acquired 100% of the equity interest and compulsorily convertible debentures of SDPL Noida as described in more detail in Note 1 - Organization structure; in exchange through combination of units of Brookfield India REIT of ₹4,550.17 million and cash consideration of ₹13,153.83 million, total amounting to ₹17,704.00 million. Brookfield India REIT has also incurred directly attributable expenses in relation to this asset acquisition, amounting to ₹118.22 million, resulting in the total purchase consideration of ₹17,822.22 million (the "Purchase consideration").

The management applied the optional concentration test, under Ind AS 103, and concluded that the acquired set of activities and assets is not a business because substantially all of the fair value of the gross assets acquired is concentrated in investment properties, with similar risk characteristics. Accordingly, this transaction has been accounted for as an asset acquisition.

The management identified and recognized the individual identifiable assets acquired and liabilities assumed; and allocated the purchase consideration to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of acquisition.

1.7 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

While the Valuation Report has been prepared independently by the Valuer, the report and this summary is subject to the following:

- a. The valuation exercise is based on prevailing market dynamics as on the date of valuation without taking into account any unforeseeable event or developments, which could impact the valuation in the future.
- b. Global economy was deeply impacted during the outbreak of COVID-19, which was declared as a Global Pandemic on 11 March 2020. Several measures to contain the impact from the Global pandemic which included national lockdowns, which was followed by several vaccination drives, follow-up booster drives etc.

As the impact from the COVID-19 related pandemic started to moderate, restrictions were slowly lifted in a phased manner by respective state governments until the Ministry of Home Affairs revoked all the restrictions by the Centre from 31 March 2022 and commented that the disaster management act will not be invoked for COVID-safety measures.

The commercial real estate sector has shown significant resilience during the Covid struck period. Majority of the markets have started to open-up and corporates have started to encourage the employees to return to office. This is also driven by record high levels of attrition witnessed across industries, which has led to strong hiring trends in terms of fresher and lateral hires. New Gen-Z (born between 1997 -2012) employees are in high demand by the employers, however, work from home period has significantly dented their wellbeing as they struggle to bond with teams. This has led to employers revisiting the need for training, interaction etc, thereby increasing the relevance of office infrastructure for such corporates.

While some organizations have been contemplating strategies with respect to the hybrid work models - flexible arrangement, allowing employees to combine onsite and offsite work as required, we expect the strong growth in the IT-BPM sector, increased interests into Indian offshore centers by several IT/ITeS corporates and GCCs is expected to drive significant demand for the commercial real estate sector.

- c. The valuation exercise is not envisaged to include all possible investigations with respect to the Subject Properties and wherein certain limitations to the investigations and inspections carried out are identified so as to enable the Reliant Party/Parties to undertake further investigations wherever considered appropriate or necessary prior to reliance. The Valuer is not liable for any loss occasioned by a decision not to conduct further investigation or inspections.

- d. Assumptions, being an integral part of any valuation exercise, are adopted as valuation is a matter of judgment and many parameters utilized to arrive at the valuation opinion may fall outside the scope of expertise or instructions of the Valuer. The Reliant Parties accepts that the valuation contains certain specific assumptions and acknowledge and accept the risk that if any of the assumptions adopted to arrive at the valuation estimates turns out to be incorrect, there may be a material impact on the valuations. Complete set of assumptions are mentioned in Valuation Reports dated 06 November 2022.
- e. The valuation exercise is based on the information shared by the Instructing Party or the Client, which has been assumed to be correct and used to conduct the valuation exercise while applying reasonable professional judgment by the Valuer. In case of information shared by any third party and duly disclosed in the report, the same is believed to be reasonably reliable, however, the Valuer does not accept any responsibility should those prove not to be so.
- f. Any statement regarding any future matter is provided as an estimate and/or opinion based on the information known at the date of this report. No warranties are given regarding accuracy or correctness of such statements.
- g. Any plan, map, sketch, layout or drawing included in this report is to assist reader in visualizing the relevant property and are for representation purposes only with no responsibility being borne towards their mathematical or geographical accuracy.
- h. Except as disclosed by the Client, it is assumed that the Subject Properties are free from any encroachments and available on the date of valuation.
- i. For the purpose of this valuation exercise, reliance has been made on the Title Reports prepared by the Legal Counsels for each of the Subject Properties and no further enquiries have been made with authorities in this regard. It is understood that the Subject Properties have encumbrances disputes and claims, however, the Valuer does not have the expertise or the purview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation exercise, it is assumed that respective Subject Properties have clear and marketable titles.
- j. The current zoning of the Subject Properties has been assessed on the basis of review of various documents including title reports shared by the Instructing Party and the current land use maps publicly available. The same has been considered for the purpose of this valuation exercise. Additionally, it is also assumed that the development on the Subject Properties adheres/would adhere to the development regulations as prescribed by the relevant authorities. No further enquiries have been made with the competent jurisdictional authorities to validate the legality of the same.
- k. The total developable/developed area, leasable area, site/plot area considered for this valuation exercise is based on the Architect's Certificate shared by the Instructing Party and the same has been checked against the approvals/layout plans/building plans provided by the Client. However, no additional verification and physical measurement for the purpose of this valuation exercise has been undertaken.
- l. In absence of any information to the contrary, it is assumed that there are no abnormal ground conditions nor archaeological remains present, which might adversely affect the current or future occupation, development or value of the Subject Properties and the Subject Properties are free from any rot, infestations, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques are used in construction or subsequent alterations or additions to the property and comments made in the property details do not purport to express an opinion about an advice upon the conditions of uninspected parts and should be taken as making an implied representation or statement about such parts.
- m. It is also stated that this is a valuation report and not a structural survey.
- n. Unless specifically disclosed in the report, no allowances are made with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Properties.
- o. Given the evolving and maturing real estate markets in India, any comparable evidences (if any) or market quotes provided has been limited to basic details such as area of asset, general location, price/rate of

transaction or sale and any other specific details that are readily available in public domain only shall be shared. Any factual information such as tenants' leasable area, lease details such as, rent, lease/rent commencement and end dates, lock-in period, rent escalation terms etc. with respect to Subject Properties is based on the documents/information shared by the Client/Instructing Party and the same has been adopted for the purpose of this valuation exercise. While few lease deeds have been reviewed on a sample basis, the Valuer does not take any responsibility towards authenticity of the rent rolls shared by the Client. Any change in the aforementioned information will have an impact on the valuation estimates and, in that case, the same would need to be reassessed. The relevant information sources are mentioned in Valuation Reports dated 06 November 2022.

- p. All measurements, areas and property age quoted/mentioned in the report are approximate. The areas of Subject Property are based on Architect's certificate as mentioned in (k) above.
- q. The Valuer is not an advisor with respect to any tax, regulatory or legal matters with respect to by Brookfield India REIT. No investigation or enquiries on the holding entity or any SPV's claim on the title of the Subject Properties has been made and the same is assumed to be valid based on the information shared by the Client/Instructing Party. No consideration shall be / has been given to liens or encumbrances against them. Therefore, no responsibility is assumed for matters of a legal nature.
- r. Kindly note that quarterly assessment of cash flows has been undertaken for the purpose of this valuation exercise.

3 VALUATION APPROACH AND METHODOLOGY

3.1 Purpose of Valuation

The purpose of this valuation exercise is to estimate the value of the Subject Properties forming a part of the portfolio of Brookfield India REIT, for the disclosure of valuation of assets forming part of the portfolio of Brookfield India REIT under the SEBI (Real Estate Investment Trust) Regulations, 2014, as amended, together with clarifications, guidelines and notifications thereunder.

3.2 Valuation Guideline and Definition

Given the purpose of valuation as mentioned above, the valuation exercise has been carried out to estimate the "Market Value" of the Subject Properties in accordance with the IVSC International Valuation Standards issued in 2021 and effective from 31 January 2022.

As per IVSC International Valuation Standards, "Market Value" is defined as 'The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.'

3.3 Valuation Approach

The valuation for the Subject Properties being Market Value, has been derived by adopting income approach, utilising the discounted cash flow method with rental reversion.

The income approach is based on the premise that value of an income producing asset is a function of future benefits and income derived from that asset. Using this valuation method, future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income and cost associated with the property. These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate. A variation of the Discounted Cash Flow Method is mentioned below.

Income Approach - Discounted Cash Flow Method using Rental Reversion

Given the market practice in most commercial/ IT developments involves contracting tenants in the form of pre-commitments at sub-market rentals to increase the attractiveness of the property to prospective tenants. Such benefits are typically extended to anchor tenants. Additionally, there are instances of tenants paying above-market rentals for certain properties as well (primarily owing to market conditions at the time of contracting the lease). In order to arrive at a unit value for these tenancies, we have normalised the impact of such sub/above market leases on the valuation of the Subject Property by estimating the rental revenue achievable at the end of the term, based on the expected rents in the market.

3.4 Valuation Methodology

In order to compute the Market Value of the Subject Properties it is prudent to understand the market dynamics and the location where the Subject Property is located (existing and future supply, demand from occupiers, average office space take up by an occupier in a particular sector, existing vacancy numbers and the rentals, likely growth of the office space etc.). Understanding of the micro market positioning (where the Subject Property is located) with respect to a location is also very important. The next step then becomes to understand the situation of the Subject Property (current achievable rentals, vacancy numbers, competing supply in the micro market etc.) with respect to the micro market.

Each of the steps required to assess the Market Value of the Subject Properties is detailed below. The same have been elaborated in the Valuation Reports also.

Market and Location Assessment:

The Client appointed Cushman & Wakefield (CWI) to prepare an independent industry and market research report, which has been relied upon and reviewed by the Valuer to develop the understanding and assess the relevant micro-markets of the Subject Properties. The said review, was carried out in the following manner:

- i. Market dynamics influencing the rents along with Subject Property rents were studied in detail. Further, the location setting of the Subject Properties in the respective micro-markets were assessed. Analysis of the micro-market was undertaken primarily based on the findings of the industry/market report prepared by

CWI and readily available information in public domain to ascertain the transaction activity of office space. The analysis entailed review of comparable properties in terms of potential competition (both completed and under-construction/future developments), comparable recent lease transactions witnessed in the micro-market along with the trends in leasing within the Subject Properties in recent past, wherever available. This analysis enabled the Valuer to have an informed opinion on the market rent (applicable rental for the micro-market where the respective Subject Properties are located) and achievable market rent (Valuer's view on achievable rent for the respective Subject Properties for leasing vacant spaces, potential leasable area under development or planned as well as upon re-leasing of the existing let out area).

- ii. For tenants occupying relatively large space within the Subject Properties, where there may be some instances of areas being let out at lower than market rent, it is assumed that the leases shall revert to market rent following the expiry of the lease, factoring appropriate re-leasing time.

Portfolio Assessment:

- i. As the first step, the rent rolls (which includes review of corresponding leases deeds) on a reasonable sample basis were reviewed to identify tenancy characteristics for the Subject Properties. As part of the rent roll review, major tenancy agreements were reviewed on a reasonable sample basis. For example, for G2 we have reviewed lease deeds of top 10 tenants contributing nearly 90% of gross contractual rentals of the subject property).
- ii. For anchor/large tenants, adjustments on achievable market rent or additional lease-up timeframe have been adopted upon lease reversion wherever relevant.
- iii. Title reports, Architect's certificates and other related documents as mentioned in earlier sections of the report were reviewed for validation of area details, ownership interests of the Subject Properties.
- iv. Physical site inspections were undertaken to assess the current status of the Subject Properties.

Preparation of Future Cash Flows:

- i. Net operating income (NOI) has primarily been used to arrive at the Market Value of the Subject Properties. The cash flows for the operational, under construction and future development area have been projected separately for the purpose of estimating and reporting valuation in accordance with the SEBI (REIT) Regulations
- ii. The projected future cash flows from the property are based on existing lease terms for the operational area till the expiry of the leases or re-negotiation, whichever is earlier, following which, the lease terms have been aligned with market rents achievable by the Subject Properties. For vacant area, under-construction area and future development area, the achievable market rent-led cash flows are projected factoring appropriate lease-up time frame for vacant/under-construction/future development area. These cash flows have been projected for 10-year duration from the date of valuation wherein 11th year NOI is capitalized (for assessment of terminal value based on NOI). These future cash flows are then discounted to present-day value (valuation date) at an appropriate discount rate.

Each of the lease was assessed to project the cash flows for a period of 10 years. The assessment was carried out in the following manner:

Step 1	Rental income from existing tenants up to the period of lease expiry, lock-in expiry, escalation milestones, etc. is projected whichever is applicable. In the event of any vacant spaces, achievable market-rent is assumed for future income for such spaces with suitable time for leasing up the space. This data is then used to generate market aligned revenue stream from existing and potential tenants for the desired time period.
Step 2	In the event the escalated contracted rent is higher than the achievable market rent by 15%, the contracted terms are ignored, and the terms are reverted to market. In the event the escalated contracted rent is below 115% of the achievable market rent, the contracted terms are adopted going forward until the next lease review/ renewal. Intent of this step is to project the rental income for respective leases until lease expiry as well as post expiry.
Step 3	Computing the monthly rental income projected as part of Step 2 and translating the same to a quarterly income (for the next 10 years and NOI of the 11th year – considered for calculation of terminal value).

- iii. Recurring operational expenses, fit-out income (wherever applicable, however, the same has not been included in the NOI for the purpose of arriving at the terminal value by capitalisation) and vacancy provision have been adopted in-line with prevalent market practices and conditions. In addition, appropriate rent-free periods have been adopted during lease roll-overs to consider potential rent-free terms as well as outflows towards brokerage. For all Subject Properties, operational revenues and expenses of the respective properties are reviewed to understand the recurring, non-recurring, recoverable and non-recoverable expenses and accordingly estimate the margins on the common area maintenance income, which accrues as cash inflows to the Subject Properties and normalised for the purpose of cash flow projections. The 1-year forward income for the 11th year has been capitalized to assess the terminal value of the development at the end of year 10.

undue reliance on forward-looking statements and information because they involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Brookfield India REIT to differ materially from anticipated future results, performance or achievement expressed or implied by such forward-looking statements and information. Factors that could cause actual results to differ materially from those set forward in the forward-looking statements or information include but are not limited to: general economic conditions, changes in interest and exchange rates, availability of equity and debt financing and risks particular to underlying Portfolio company investments. There is no guarantee that Brookfield India REIT will be able to successfully execute on all or any future deals, projects or exit strategies, achieve leasing plans, secure debt or receive development approvals as set forth herein. Projected results reflected herein have been prepared based on various estimations and assumptions made by management, including estimations and assumptions about events that have not yet occurred. Due to various risks, uncertainties and changes beyond the control of the Manager, the actual performance of the Brookfield India REIT could differ materially from the projected results set forth herein. There is no assurance, representation or warranty being made by any person that any of the projected results set forth herein will be achieved and undue reliance shall not be placed on them. Industry experts may disagree with the assumptions used in presenting the projected results.

Any changes to assumptions could have a material impact on projections and actual returns. Actual returns on unrealized investments will depend on, among other factors, future operating results, the value of the assets and market conditions at the time of disposition, legal and contractual restrictions on transfer that may limit liquidity, any related transaction costs and the timing and manner of sale, all of which may differ from the assumptions and circumstances on which the valuations used in the prior performance data contained herein are based. Accordingly, the actual realized returns on unrealized investments may differ materially from the returns indicated herein.

In considering investment performance information contained herein, you should bear in mind that past performance is not necessarily indicative of future results and there can be no assurance that comparable results will be achieved, that an investment will be similar to the historic investments presented herein (because of economic conditions, the availability of investment

opportunities or otherwise), that targeted returns, diversification or asset allocations will be met or that an investment strategy or investment objectives will be achieved. Any information regarding prior investment activities and returns contained herein has not been calculated using generally accepted accounting principles and has not been audited or verified by an auditor or any independent party. Nothing contained herein should be deemed to be a prediction or projection of future performance.

Certain of the information contained herein is based on or derived from information provided by independent third party sources.
